ACKNOWLEDGEMENT

I hereby take the opportunity to thank late Prof. D.M.Desai for his valuable guidance and encouragement provided by him at every stage of this work. I would like to express my gratitudes to Dr.P.K. Dongre, Reader in Education who not only guided ably but also encouraged me to complete the enormous task of report writing after the sad demise of my guide Dr.Desai.

My sincere thanks are due to Dr.N.S.Pathak, Reader and Head, Department of Psychology for providing guidance with regards to methodology and design of the study. Dr.A.G.Phatak deserves special thanks for his guidance in the statistical analysis of this work.

I sincerely wish to extend my thanks to Dr.(Smt.) Jayaben Patel, Principal, Alembic Vidyalaya who so kindly allowed me to conduct the group testing at her school. Thanks are also due to Shri P.J.Patel, Principal, and Miss Hasuben Majmundar, Vice-Principal of Maharani High School for Girls who provided all the possible help to conduct the experiment for the study

I am also thankful to all the experts who co-operated so willingly in selection of content for the study. They are my teachers and colleagues from the Home Science Education and Extension and Home Management Department of the Faculty

of Home Science, the three teachers from the schools offering Home Science in Baroda and also Miss Dhanbai Ankleshwaria, the author of the textbook in Home Science.

My thanks are also due to my husband, my friends, well-wishers and the family members who have been a continuous source of encouragement throughout my study.

Last but not the least, I will fail in my duty if I forget to express my appreciation to the students of IXth class of the Alembic Vidyalaya as well as of the Maharani High School for Girls for their co-operation in carrying out this experiment successfully.

I dedicate this work to my three sons who have been deprived of many things - particularly personal attention and care in order to get this work completed and make it ready for submission.

KALPANA R.PARLIKAR
