Acknowledgements

First and foremost, I would like to express my deep gratitude towards my supervisor **Prof. Prafulla K. Jha** for his guidance and supportive nature. His mentorship and guidance have helped me to achieve success in my research career.

I am grateful to **Dr. Boby Joseph (Xpress-High pressure diffraction beamline, Elettra-Sincrotrone Trieste,Italy)**, for giving exposure to experimental studies and for making the work presented in Chapter 4 of this thesis possible.

I thank **Dr. Brahmananda Chakraborty (High Pressure and Synchrotron Radiation Physics Division, Bhabha Atomic Research Centre, Mumbai)** for having many fruitful discussions and providing valuable inputs for carrying out my research work.

I am grateful to **Prof. Murli Manghnani (Hawaii Institute of Geophysics and Planetology, University of Hawaii at Mānoa, Hawaii)** for his encouragement and advices during certain stages of my research career.

I am thankful to **Dr. Shweta Dabhi (Charotar University of Science and Technology, Changa)** for extending her valuable guidance and making me familiar with computational codes during the early stages of my career.

I acknowledge the **Ministry of Earth Sciences, (MoES), Govt. of India,** for providing financial assistance during initial stage of my research career, **Council of Scientific and Industrial Research (CSIR), Govt of India,** for providing financial support in the form of Senior Research Fellowship and **Department of Science & Technology (DST), Govt. of India,** for providing support in executing the high-pressure diffraction experiments at Xpress beamline of the Elettra Sincrotrone facility at Trieste, Italy.

I am grateful to **my friends** and **lab mates** for providing the environment and being supportive with lot of helping hands.

I am also thankful to the **teaching and non-teaching staffs** of Department of Physics, Faculty of Science, The Maharaja Sayajirao University of Baroda.

I will be always thankful to **my parents** for their sacrifices, patience and providing all the support during the entire duration of my Ph.D work, to my brother **Sharan** for waiting me late night many days to finish my work at lab, to my wife **Athira Rajan** for her immense support and motivation on tough times and throughout my research career and for being my helping hands during my thesis writing.
