A C K N O W L E D G M E N T S

It is with great pleasure that the author acknowledges his deep sense of gratitude to Dr. A.M.Talati for suggesting the problem and stimulating interest in the work, and for encouragement and guidance through the various phases of the work.

He also takes this opportunity to express his sense of gratefulness to Professor Suresh Sethna, Head of the Chemistry Department and Dean, Faculty of Science, for his encouragement and continued interest in the work, to Professor L.B.Shah, Dean, Faculty of Technology and Engineering and Professor R.L.Desai, Head of the Textile Chemistry Department,for their keen interest in the work, to Dr. Jagdish Shanker, Chemistry Division, Atomic Energy Establishment, Bombay for providing facilities (to Mr. P.M.Desai) to take infra-red spectra presented herein and to Dr. S.S.Lele for the micro-analyses of the samples.

Finally, the author thanks all the fellow workers and the members of the staff for their kind co-operation from time to time.

T. I. Patel
