ACKNOWLEDGEMENT I

TABLE OF CONTENTS VIII

LIST OF FIGURES XI

LIST OF TABLES XVIII

LIST OF ANNEXURE XIX

CHAPTER 1. INTRODUCTION 1

1.1 Background 2

1.2 Holocene climate variability 3

1.2.1 Major climatic episodes during last 2 millennia 4

1.2.2 Mid–late Holocene Climatic reconstruction 7

1.2.3 Signals of major climatic events during last 2 millennia: Indian Subcontinent 11

1.3 Land-Sea level changes 12

1.4 Late Quaternary sea level changes 13

1.5 Holocene Sea level changes 14

1.5.1 Global sea level changes during Holocene Period 14

1.5.2 Mid-late Holocene Sea level variability along Indian coast 16

1.5.3 Mid-late Holocene Sea level changes along Gujarat Coast 18

1.5.4 Past Sea level indicators along southern Saurashtra coast 20

1.6 Mudflats: Black Box to Climate and Sea level change 22

1.7 The Study Area 25

1.7.1 Tectonics, Geomorphology and Geology 26

1.7.2 Southern Saurashtra coast-Lithostratigraphic units 28

2.1.1 Drainage system 32

1.7.3 Climate and vegetation 34

1.8 Motivation 36

1.9 Outline of the thesis 37

CHAPTER 2. MATERIAL AND METHODS 39

2.1 Sample collection 40

2.2 Chronology– Radiocarbon dating 42

2.2.1 Conventional radiocarbon dating technique 43

2.2.2 Accelerator Mass Spectrometer (AMS) dating technique 44

2.2.3 Reservoir age correction (Δ R) 46

2.3 Paleoclimatic proxies 47

2.3.1 Total organic carbon (TOC) and Total Nitrogen (TN) 47
2.3.2 Stable Isotopes- $\delta^{13}C$, $\delta^{15}N$ and $\delta^{34}S$ 48
2.3.3 Major and Trace elements 50
2.3.4 Pollen as proxy 52
2.4 Measurement techniques 53
2.4.1 $CaCO_3$, TOC and TN measurement 53
2.4.2 Major and Trace elements 54
2.4.3 Pollen Analysis 55
2.4.4 Nitrogen, Carbon and Sulphur Isotopes 55

CHAPTER 3. MID HOLOCENE CLIMATE AND LAND SEA INTERACTION FROM RELICT MUDFLAT OF VASOJ VILLAGE 58

3.1 Relict Mudflat: Vasoj Village 59
3.2 Litho–section of the relict mudflat 59
3.3 Chronology 61
3.4 Results 62
3.4.1 Geochemical Analysis 62
3.4.2 Palynological Analysis 66
3.5 Discussion 72
3.1 Stable isotope variations and their implication 76
3.1.1 Nitrogen isotopes 76
3.1.2 Carbon Isotopes 77
3.1.3 Nitrogen and Carbon isotopic variation in the relict mudflat (VV) 78
3.2 Geochemical and palynological response towards land sea interaction 78
3.3 Mid-Holocene land level changes 81
3.4 Climate and land–sea interaction during last 4700 cal yr BP 82
3.5 Sedimentary records of paleoredox conditions at relict mudflat of Vasoj Village (VV) 84
3.5.1 Control of redox conditions on trace elements 86
3.5.2 Behaviour of redox sensitive elements in relict mudflat of Vasoj village (VV) 88
3.6 Redox conditions during 4710–1500 cal yr BP at Relict mudflat of Vasoj village 92
3.7 Phases of redox conditions during 4710 cal yr BP at relict mudflat 94

CHAPTER 4. PALEOMONSOONAL RECORDS FROM THE PARTIALLY ACTIVE MUDFLAT OF DIU ISLAND 97

4.1 Partially active mudflat: Diu 98
4.2 Chronology 99
4.3 Results 99
4.4 Discussion 108
4.5 Was there a sea regression after 3000 cal yr BP? 115
4.6 Climatic Reconstruction of last 4000 yr BP from Diu active mudflat 116

CHAPTER 5. CLIMATIC VARIABILITY OF THE LAST 2 MILLENNIA FROM ROHISA ACTIVE MUDFLATS 118

5.1 Active mudflat: Rohisa 119

5.2 Core location 120

5.3 Chronology 120

5.4 Active Mudflat of Rohisa (RH)-Results 121

5.5 Discussion- Rohisa Active Mudflat (RH) 127

5.6 Climatic reconstruction during last 2000 yr BP 132

CHAPTER 6. SOLAR FORCING OF LATE HOLOCENE CLIMATIC RECORDS FROM ACTIVE MUDFLATS OF SAURASHTRA 134

6.1 Sun and Climate 135

6.2 Total Solar Irradiance (TSI) 135

6.3 Past climatic proxies and solar forcing 137

6.4 Solar forcing on the Climatic Records from the Saurashtra Mudflats 138

6.4.1 Influence of Solar Forcing during last 2 ka 139

6.4.2 Spectral Analysis 141

6.5 Evidences of solar forcing from active mudflats of southern Saurashtra 146

CHAPTER 7. SULPHUR ISOTOPES AS TRACERS FOR SEA LEVEL VARIABILITY 149

7.1 Sea level changes 150

7.1.1 Sulphur isotope 151

7.2 Result and Discussion 152

7.2.1 The Relict mudflat (Vasoj: VV) 153

7.2.2 The Active Mudflat of Saurashtra 157

7.3 Comparison between $\delta^{34}S$ and TS for the active and relict mudflats 163

7.4 $\delta^{34}S$ as an indicator of sea level change caused by tectonics along South Saurashtra Coast 165

CHAPTER 8. SUMMARY AND CONCLUSION 167

8.1 Summary 168

8.1.1 Mid-Late Holocene Climatic reconstruction along Southern Saurashtra Coast 168

8.1.2 Comparison of present study with that of previous study 171

8.1.3 Mid-Late Holocene Tectonic History along Southern Saurashtra Coast 171

8.1.4 Response of Mudflat towards Total Solar Irradiance 175

8.2 Conclusion 176
