ACKNOWLEDGEMENTS

It is with great pleasure and deep sense of gratitude I record my sincere thanks to Dr. J. C. George, my guiding teacher, Professor and Head of the Department of Zoology, for his inspiring guidance.

I am greateful to Drs. B. R. Dave, G. V. Merchant, S. A. Ambegaokar and S. H. Shah and their colleagues of the Medical College, Baroda, for kindly supplying the human muscle biopsy samples.

I wish to express my indebtedness to all my colleagues in this department, particularly to Drs. N. V. Vallyathan, F. D. Bokdawala and N. J. Chinoy for their valuable help and criticism during the tenure of the study.

This work was supported by a personal grant to Dr. J. C. George from the Muscular Dystrophy Associations of America.
