ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Professor J.C.George for suggesting the problem and for his constant guidance and inspiration. It is a pleasure to thank all my colleagues in the department who helped me in various ways in the preparation of the thesis. I am also indebted to Mr. V.K.Chari, Curator of the Natural History Museum, Bombay, for helping me with the identification of some of the insects studied. Finally I wish to record my grateful thanks to the Ministry of Education, Government of India for supporting this work by awarding me a Senior Research Scholarship for three years.
