LIST OF FIGURES

Figure 1. 1:Sketch showing the internal anatomy of Anthozoa. (Source: Kozloff, 1990) 4

Figure 1. 2: Polyp Sections showing Brachycnemic and Macrocnemic mesentery 18

Figure 1. 3: Brachycnemic mesentery showing both directives 18

Figure 2. 1: Map of the study sites 34

Figure 2. 2: Study area and reef area studied at different study sites 35

Figure 2. 3: Study site at Okha (intertidal zone shown in blue) 37

Figure 2. 4: Study site at Dwarka (intertidal zone shown in blue) 37

Figure 2. 5: Study site at Veraval (intertidal zone shown in blue) 38

Figure 2. 6 Study site at Sutrapada (intertidal zone shown in blue) 38

Figure 4. 1: Schematic diagram showing general distribution pattern of zoanthids in littoral zone 106

Figure 4. 2: Percentage coverage of Zoanthids at Okha 107

Figure 4. 3: Percentage coverage of Zoanthids at Dwarka 107

Figure 4. 4: Percentage coverage of Zoanthids at Veraval 110

Figure 4. 5: Percentage coverage of Zoanthids at Sutrapada 110

Figure 5. 1: Percentage cover of macrobenthic communities at study sites 123

LIST OF PLATES

Plate 2. 1: A generalized diagram of intertidal zonation 36

Plate 3. 1:A,B,C,D: Scanning Electron Microscopy images of *Palythoa mutuki, Isaurus tuberculatus and Zoanthus sansibaricus; E: Palythoa tuberculosa* showing encrustation in polyp walls 59

Plate 3. 2: *A: L.S. of Zoanthus sansibaricus; B: Isaurus tuberculatus polyps C: T.S of Isaurus tuberculatus showing tubercle; D: Zoanthus sansibaricus colony; E: L. S. of Isaurus tuberculatus* 60

Plate 3. 3: EDS of *Zoanthus sansibaricus* at Veraval 61

Plate 3. 4: EDS of *Zoanthus sansibaricus* at Sutrapada 62

Plate 3. 5: EDS of *Palythoa mutuki* at Dwarka 63

Plate 3. 6: EDS of *Palythoa tuberculosa* at Dwarka 64

Plate 3. 7: A, B: Colonies of *Palythao tuberculosa and C: Palythoa caesia* 65

Plate 3. 8: A and B: Palythoa mutuki polyps and colony; C: Paythoa heliodiscus 66

Plate 3. 9: A: Stoloniferous polyps of *Palythoa mutuki*; B and C: *Zoanthus sansibaricus* colony 67

Plate 3. 10: A and B: *Zoanthus vietnamensis,* Polyp and Colony; B and C: *Isaurus tuberculatus* morphs 68

Plate 3. 11: Colour morphs of *Zoanthus sansibaricus* 70

Plate 3. 12: Colour morphs of *Zoanthus aff. sociatus* 80

Plate 3. 13: Colour morphs of *Z. vietnamensis* 82

Plate 3. 14: Colour morphs of *Z. kuroshio* 84

Plate 3. 15: Colour morphs of *Palythoa mutuki, Palythao cf. mutuki and Palythoa heliodiscus* 86

LIST OF TABLES

Table 3. 1: Classification of Zoanthids 54

Table 3. 2: The characteristics visible for the identification of Zoanthids for commeners (Source: Reef magazine) 55

Table 3. 3: Identification Key for the Zoanthid species observed in Gujarat 56

Table 3. 4:Colour Morphs of *Zoanthus sansibaricus* 69

Table 3. 5: Color Morphs of *Zoanthus aff. sociatus* 79

Table 3. 6: Colour morphs of *Z. vietnamensis* 81
Table 3. 7: Color morphs of *Zoanthus kuroshio* 83

Table 3. 8: Colour morphs of *Palythoa mutuki, Palythao cf. mutuki and Palythoa heliodiscus* 85

Table 4. 1: Summary of overall distribution of zoanthids along the Saurashtra 103

Table 5. 1: Associated Flora 120

Table 5. 2: Presence of other Anthozoans at study sites 122

Table 5. 3: Zone wise distribution of Macrobenthic Community 123

Table 5. 4: Site-wise associated faunal presence 124
