Table of Contents

Acknowledgement		i
List of Abbreviations		iv
Introduction		1
Materials and Methods		21
Chapter 1:	An account on morphogenesis of regenerating tail fin with an emphasis on the expression pattern of key signalling molecules that initiate epimorphosis	38
Chapter 2:	Inhibition of BMP signalling by LDN193189 delays wound epithelium formation by modulating the expression pattern of associated signalling pathways as well as inflammatory response	57
Chapter 3:	BMP signalling facilitates blastema formation in *Poecilia latipinna* by modulating extracellular matrix remodelling and cell cycle turnover	87
Executive Summary		124
Bibliography		130
Appendix I		147
Appendix II		148
Appendix III		151
Appendix IV		164
