

LIST OF TABLES

Table 3.1	: Number of Secondary Schools in Baroda District.	77
Table 3.2	: Distribution of Sample of Students over Gender and Location of Schools.	78
Table 3.3	: Distribution of Sample of Students of Rural Schools.	79
Table 3.4	: Distribution of Sample of Students of Urban Schools.	81
Table 3.5	: Distribution of statements on the tryout form of the scientific attitude scale.	105
Table 3.6	: Distribution of the Statements according to the component and polarity.	106
Table 3.7	: Description of sample of students considered in selection of statements on scientific attitude scale.	113
Table 3.8	: The Mean, Sd and 't' values of ninety statements.	119
Table 3.9	: Distribution of statements on the final form of the scientific attitude scale.	125

Table 3.10 : Distribution of coefficient of correlation within components of the scientific attitude scale.	129
Table 3.11 : Distribution of statements of the scientific attitude scale into two halves.	131
Table 3.12 : Mean, Standard Deviation, Skewness, Kurtosis and Percentiles of Scientific Attitude Score of the Students.	135
Table 4.1 : Mean, Standard Deviation, Skewness, Kurtosis and Percentiles of Scientific Attitude Score of the Students.	156
Table 4.2 : Coefficient of correlation of Scientific Attitude with SES, Achievement in Science and General Achievement of students.	164
Table 4.3 : The Mean, SD and t-value of Scientific Attitude of Boys and Girls.	165
Table 4.4 : The Mean, SD and t-value of Scientific Attitude of Urban and Rural Students.	166

Table 4.5 : Summary of ANOVA of Scientific Attitude of High SES, Average SES and Low SES students.	170
Table 4.6 : The Mean, SD and t-value of Scientific Attitude of High SES students, Average SES students and Low SES students.	171
Table 4.7 : Summary of ANOVA of Scientific Attitude of High, Average, and Low Achievers in Science.	173
Table 4.8 : The Mean, SD and t-value of Scientific Attitude of High, Average, and Low Achievement in Science students.	174
Table 4.9 : Summary of ANOVA of Scientific Attitude of students with High, Average, and Low General Achievement.	175
Table 4.10 : The Mean, SD and t-value of Scientific Attitude of High, Average and Low General Achievers.	176
Table 4.11 : Summary of ANOVA of Scientific Attitude of Urban boys, Urban girls, Rural boys and Rural girls.	180

Table 4.12 : The Mean, SD and t-value of Scientific Attitude of Urban Boys, Urban Girls, Rural Boys, and Rural Girls.	181
Table 4.13 : Summary of ANOVA of Scientific Attitude of Urban: High, Average, and Low SES; and Rural: High, Average, and low SES Students.	183
Table 4.14 : The Mean, SD and t-value of Scientific Attitude of Urban High SES, Urban Average SES, Urban Low SES, Rural High SES, Rural Average SES and Rural Low SES students.	185
Table 4.15 : Summary of ANOVA of Scientific Attitude of Boys: High, Average, and Low SES; and Girls: High, Average, and low SES Students.	188
Table 4.16 : The Mean, SD and t-value of Scientific Attitude of, Boys: High, Average, and Low SES; and Girls: High, Average, and Low SES.	190
Table 4.17 : Summary of ANOVA of Scientific Attitude of Urban: High, Average, and Low Achievers in Science; and	193

	Rural: High, Average, and low Achievers in Science.	
Table 4.18 :	The Mean, SD and t-value of scientific Attitude of Urban: High, Average, and low Achievers in Science; and Rural: High, Average, and low Achievers in Science.	194
Table 4.19 :	Summary of ANOVA of Scientific Attitude of Boys: High, Average, and Low Achievers in Science; and Girls: High, Average, and low Achievers in Science.	197
Table 4.20 :	The Mean, SD and t-value of Scientific Attitude of Boys: High, Average, and Low Achievers in Science; and Girls: High, Average, and Low Achievers in Science.	199
Table 4.21 :	Summary of ANOVA of Scientific Attitude of Urban: High, Average, and Low General Achievers; and Rural: High, Average, and Low General Achievers.	203
Table 4.22 :	The Mean, SD and t-value of Scientific Attitude of Urban :	204

	High, Average, and Low General Achievers; and Rural : High, Average, and Low General Achievers.	
Table 4.23 :	Summary of ANOVA of Scientific Attitude of Boys: High, Average, and Low General Achievers; and Girls: High, Average, and Low General Achievers.	208
Table 4.24 :	The Mean, SD and t-value of Scientific Attitude of Boys: High, Average, and Low Achievers in Science; and Girls: High, Average, and Low Achievers in Science.	209
Table 4.25 :	Summary of ANOVA of Scientific Attitude of Urban- Boys: High, Average, and Low SES; Girls: High, Average, and low SES; Rural- Boys: High, Average, and Low SES; and Girls: High, Average, and low SES.	213
Table 4.26 :	The Mean, SD and t-value of Scientific Attitude of Urban: Boys: High, Average, and Low SES; Girls: High, Average, and Low SES; Rural: Boys: High, Average, and	214

	Low SES; Girls: High, Average, and Low SES.	
Table 4.27 :	Summary of ANOVA of Scientific Attitude of Urban- Boys: High, Average, and Low Achievers in Science, Girls: High, Average, and low Achievers in Science, Rural- Boys: High, Average, and Low Achievers in Science, and Girls: High, Average, and low Achievers in Science.	224
Table 4.28 :	The Mean, SD and t-value of Scientific Attitude of, Urban: Boys: High, Average, Low Achievers in Science, Girls: High, Average, Low Achievers in Science, Rural: Boys: High, Average, Low Achievers in Science, Girls: High, Average, Low Achievers in Science.	226
Table 4.29 :	Summary of ANOVA of Scientific Attitude of, Urban- Boys: High, Average, and Low General Achievers, Girls: High, Average, and low General Achievers, Rural- Boys: High, Average, and Low	236

General Achievers, and Girls:
High, Average, and low General
Achievers.

Table 4.30 : The Mean, SD and t-value of 237

Scientific Attitude of Urban:
Boys: High, Average, Low General
Achievers, Girls: High, Average,
Low General Achievers, Rural:
Boys: High, Average, Low General
Achievers, Girls: High, Average,
Low General Achievers.
