List of Tables

Table No.	Title	Page No.
Table 2.1	List of novel probiotic cereal beverages	46
Table 2.2	Cereal prebiotics for the development of healthy beverages	48
Table 2.3	Amount of FOS (%) per 100gm of raw in some natural foods	52
Table 4.1	Specification of the Fructooligosaccharide used for ambils	59
Table 4.2	List of Raw Ingredients along with their Sources used for Product Preparation	60
Table 4.3	Species specific primers used in the study	67
Table 5.1	Comparison for organoleptic properties of different flavours of rice ambils	95
Table 5.2.	Comparison for organoleptic properties of different flavours of barley ambils	96
Table 5.3.	Comparison for organoleptic properties of different flavours of pearl millet ambils	97
Table 5.4.	Comparison for organoleptic properties of different flavours of finger millet ambils	98
Table 5.5	Comparison for organoleptic properties of different cereal based ambils with salt cumin flavor	99
Table 5.6	Bifidobacterium and Lactobacillus isolated from buttermilk and ambils	109
Table 5.7	Bifidobacterium strains isolated from buttermilk	110
Table 5.8	Lactobacillus strains isolated from buttermilk	111
Table 5.9	Bifidobacterium strains isolated from rice ambil	111
Table 5.10	Lactobacillus strains isolated from rice ambil	112
Table 5.11	Bifidobacterium strains isolated from pearl millet ambil	113
Table 5.12	Lactobacillus strains isolated pearl millet ambil	113
Table 5.13	Bifidobacterium strains isolated from barley ambil	114
Table 5.14	Lactobacillus strains isolated from barley ambil	115
Table 5.15	Bifidobacterium strains isolated from finger millet ambil	115
Table 5.16	Lactobacillus strains isolated from finger millet ambil	116
Table 5.17	Physicochemical properties of fresh ambils	125

Table 5.18	Physicochemical properties of packaged ambil (per 100ml)	126
Table 5. 19	Nutritional composition of buttermilk (per 100ml)	128
Table 5.20	Nutritional composition of fresh ambils (per 100ml)	129
Table 5.21	Percentage difference between fresh and packaged rice ambil (per 100ml)	133
Table 5.22	Mean scores for the sensory attributes of fresh Rice ambil over a storage period of 5 days	135
Table 5.23	Mean scores for the physicochemical parameters of fresh Rice ambil over a storage period of 5 days	137
Table 5.24	Microbial content of freshly prepared rice ambil over the storage period	139
Table 5.25	Mean scores for the sensory attributes of fresh Barley ambil over a storage period of 5 days	140
Table 5.26	Mean scores for the physicochemical parameters of fresh Barley ambil over a storage period of 5 days	142
Table 5.27	Microbial content of freshly prepared barley ambil over the storage period	144
Table 5.28	Mean scores for the sensory attributes of fresh Pearl millet ambil over a storage period of 5 days	145
Table 5.29	Mean scores for the physicochemical parameters of fresh pearl millet ambil over a storage period of 5 days	147
Table 5.30	Microbial content of freshly prepared pearl millet ambil over the storage period	149
Table 5.31	Mean scores for the sensory attributes of fresh finger millet ambil over a storage period of 5 days	150
Table 5.32	Mean scores for the physicochemical parameters of fresh finger millet ambil over a storage period of 5 days	152
Table 5.33	Microbial content of freshly prepared finger millet ambil over the storage period	154
Table 5.34	Mean scores for the sensory attributes of packaged rice ambil over a storage period of 6 months	155
Table 5.35	Mean scores for the physicochemical properties of packaged rice ambil over a storage period of 6 months	157
Table 5.36	Summary of sensory and physicochemical parameters of all fresh ambils at the end of 5 days	159

Table 5.37	Frequency of consumption of curd/ buttermilk (Chi Square test)	169
Table 5.38	Frequency of consumption of fruit juice (Chi Square test)	170
Table 5.39	Frequency of consumption of probiotic drinks (Chi Square test)	171
Table 5.40	Consumer views on the idea of the packaged rice ambil	175
Table 5.41	Consumer views on need of the packaged rice ambil commercially	176
Table 5.42	Consumer preference for purchase of the packaged rice ambil	177
Table 5.43	Consumer preference for cost of the packaged rice ambil	178
Table 5.44	Consumer preference to recommend the packaged rice ambil to others	179
Table 5.45	Consumer preference for flavours of the packaged rice ambil	180
Table 5.46	Consumer preference for package size of the packaged rice ambil	181
Table 5.47	Appearance as a factor for purchase of health drinks by the consumers	182
Table 5.48	Taste as a factor for purchase of health drinks by the consumers	182
Table 5.49	Texture as a factor for purchase of health drinks by the consumers	183
Table 5.50	Nutrition as a factor for purchase of health drinks by the consumers	183
Table 5.51	Convenience as a factor for purchase of health drinks by the consumers	183
Table 5.52	Price as a factor for purchase of health drinks by the consumers	183
Table 5.53	Aroma as a factor for purchase of health drinks by the consumers	183
Table 5.54	Innovation as a factor for purchase of health drinks by the consumers	184
Table 5.55	Brand as a factor for purchase of health drinks by the consumers	184
