ACKNOWLEDGEMENTS

*This treatise, has been a result of the most important contributions from my guide **Prof. H. L. Bhalla**, Prof. of Pharmaceutics, B. V. Patel PERD Centre, Ahmedabad. He was formerly, Director, B. V. Patel PERD Centre, Ahmedabad. He has been a rich personal source of inspiration and guidance. His reelentless and always thoghtful questioning was often critical to the honing of ideas during the course of this study and the preparation of this manuscript.*

***Dr. Anisha Pargal**, Director, B. V. Patel PERD Centre, has been gracious in support of this research by providing unmatched research facilities.*

*I am grateful to the **Department of Atomic Energy, Government of India**, for providing financial support during a part of my research work.*

*Generous gift samples of levonorgestrel and poly (dl-lactide-co-glycolide), provided by the **Wyeth Laboratories Ltd.** and **Birmingham Polymers Inc.** respectively, has helped in timely completeion of this work.*

*I thankfully acknowledge the help received from **Cadila Lab. Ltd.** in providing excellent library facility and also for carring out analysis of some samples.*

*I thank **Dr. Ankleswaria**, Polymers Div. GSFC, for carring out DSC scans of polymer samples and **Dr. Unnita Shah** for her help in interpreting the results of the histopathology studies.*

*Obviously, the gratefully remembered contributors to this piece of study are my friends and collegues, at the **B. V. Patel PERD centre**, who have been relentlessly cheerful from the start of the study. They have offered their vital help and suggestive criticism when I most needed it.*

*I owe special thanks to **my parents, brother and sister** for their total support to me for all these years. My wife **Falguni**, above all personally cared about my work, shared my part of duties and nurtured my confidence throughout the preparation of this manuscript.*

Thanks, to all of you for your care and faith.

CHETAN C. DOSHI
