SMT. HANSA MEHTA LIBRARY

LIST OF TABLES

Table No.	Title	Page No.
1.	Ultraviolet absorption of Rifampicin	102
2.	Calibration curve for estimation of Rifampicin in PBS pH 7.4	103
3.	Calibration curve for estimation of Gentamicin Sulphate in distilled water.	104
4.	Composition of the various batches of Rifampicin Niosomes with respect to Span 60:CHOL: Drug Ratios.	105
5.	Entrapment efficiency of Different formulations of Rifampicin Niosomes.	106
6.	Particle size analysis of Rifa 2 Batch	107
7	Particle Size analysis of Rifa 8 Batch	108
8.	Particle Size analysis of Rifa 4 Batch	109
9.	Particle Size analysis of Rifa 6 Batch	110
10.	Composition of the various batches of Gentamicin Sulphate Niosomes with respect to Tween 60 : CHOL : Drug Ratios.	111
11.	Entrapment efficiency of Different formulations of Niosomes containing Gentamicin	112

12. Particle Size analysis of Genta 2 Batch 113

13. Particle Size analysis of Genta 4 Batch 114

14. Particle Size analysis of Genta 10 Batch 115

15. Particle Size analysis of Genta 12 Batch 116

16. Analysis of variance Table following Yate's treatment (Rifampicin Niosomes) 117

17. Analysis of variance Table following Yate's treatment (Gentamicin Niosomes) 118

18. Optimization of formulation and process variables for Rifampicin Niosomes. 119

19. Analysis of variance Table following Yate's Treatment(Rifampicin Niosomes) 120

20. Optimization of Formulation and process variables for (Gentamicin Niosomes) 121

21. Analysis of variance Table following Yate's Treatment(Gentamicin Niosomes). 122

22. Diffusion of drug from selected batches of Rifampicin across cellophane membrane. 143

23. Diffusion of drug from selected batches of Gentamicin Sulphate across cellophane membrane. 144

24. Phagocytosis of Liposomal and Niosomal drug loaded vesicles by macrophages. 145

25. Calibration curve for estimation of Rifampicin in Liver, Lung, Kidney extract and Serum. 162

26. Invivo distribution of Rifampicin in various organs and Serum of rats. (Intravenous administration). 163

27. Invivo distribution of Rifampicin in various organs and Serum of rats. (Intratracheal Administration). 164

28 Pharmacokinetic study for Rifampicin Niosomes (Intravenous administration). 165

29. Pharmacokinetic study for Rifampicin Niosomes (Intratracheal Administration). 166

30. Calibration curve for estimation of Gentamicin in Liver, Lung, Kidney extract and Serum. 167

31. Invivo distribution of Gentamicin in various organs and serum of rats. (Intravenous administration). 168

32. Invivo distribution of Gentamicin in various organs and serum of rats. (Intratracheal Administration). 169

33. Pharmacokinetic Study of Gentamicin (I.V. Administration) 170

34. Pharmacokinetic Study of Gentamicin (Intratracheal Administration) 171

35. Leakage rate study for Rifampicin and Gentamicin Niosomes. 202

36. Leakage rate study for Rifampicin and Gentamicin Niosomes (% drug retained). 203
