ACKNOWLEDGEMENTS

Words have never expressed human sentiments but they are influential means to do so, any accomplishment requires the effort of many people and this work is not different. It gives me immense pleasure to express my heartfelt thanks to all those who have directly or indirectly contributed to make this work a success. I will always be grateful to the God for enabling me to do whatever I could in all these years towards completion of this work.

The present work was carried out at Pharmacy Department, The Maharaja Sayajirao University of Baroda, during the years 2005-2008. In June 2006, I also had an opportunity to stay in Professor Giancarlo Cravotto's group at the University of Turin, Italy for three months, which is greatly appreciated.

My warmest thanks belong to my principal supervisor Dr. Rajashree C. Mashru who gave me an opportunity to contribute to science and inculcated in me a logical approach to tackle scientific problems. She has been a constant source of inspiring guidance, thought provoking ideas, and this dissertation is a result of her rational and meaningful thinking. Thanks to Professor A. N. Misra Head, Pharmacy Department, who provided all the facilities to carry out the work.

No words can express my gratefulness to Prof. R. S. R. Murthy, Prof. M. R. Yadav, Prof. S. H. Mishra, Prof.. R. Balraman, Prof. K. K. Sawant, Prof. S. J. Rajput, Prof. R. Girdhar for their valuable support during the research work.

I gratefully acknowledge the help provided by the Vaishali Madam, Hasumati Madam, Mitesh and non-teaching staff of G. H. Patel Building.

I would like to give a special note of attention for my dear friends Yogesh Rane, Pramod Yedurkar, Devendra Puntambekar and Atul Badhan for their pleasant company and gesture of true friendship.

A note of this kind cannot end without a word of appreciation and thankfulness to my colleagues Jolly Sankalia, Ashutosh Pathak, Samir Patel, Adhvait Dixit, Nagraj Sir, Arti Thakkar, Pallavi Rai and all the Pharma and nonpharma Dr. V. S. Hall residents for their cheerful company, many helpful discussions and affection during the work. I am also grateful to all my coworkers in Pharmacy Department and other everyone who have helped me in some way other in the fulfillment of this work.

I am grateful to my fiancée Mugdha for her inspiration and moral support. She provided throughout my research work and her patience was tested to the utmost by a long period of

separation. Without her loving support and understanding I would never have completed my present work in time. My lovely sisters, Shruti and Mepa, deserve special thanks for their moral support during my tough times.

Adequate words are not found to express my gratitude for the love, encouragement and help rendered to my by my Parents for their enormous patience they put forth during my study. It was moral support and constant motivation by my beloved father which encouraged me in completing my research work successfully.

Above all, I thank God for giving me the strength, perseverance and opportunity to carry out this work to the best of my ability.

Finally it is inevitable in this project, that omissions, occasional errors and lapses in the accuracy of interpretations might have escaped detection. I hope that any mistakes are minor and minimum and I accept the full and exclusive responsibility for them.

Punit Shah
