LIST OF PLATES

PLATE		PAGE
3.1	Granite quarry, Umedpura, Banaskantha district.	46
3.2	Photograph showing the exposures of granite near Navavas, Mehsana district.	46
3.3	Exposures of granite around Idar, Sabarkantha district.	49
3.4	Photomicrograph of medium grained Granite (Crossed Nicols, X50).	49
3.5	Photomicrograph of coarse grained Granite (Crossed Nicols, X50).	51
3.6	Granite quarry, Parvadi, Panchmahals district.	51
4.1	Ukai dam (Surat district) showing use of Deccan Trap as Rubble.	66
4.2	Basalt quarry, Areth, Surat district.	71
4.3	Norite Boulders in river bed, Chitrasani, Banaskantha district.	71
4.4	Rhyolite quarry, Rajula, Amreli district.	75
4.5	Columnar jointing in Baslat, Sevalia, Kheda district.	77
4.6	Photomicrograph of fine grained Basalt showing flow texture (Cross Nicols, X50).	77
4.7	Photomicrography of porphyritic Olivine Basalt (Crossed Nicols, X50).	79
4.8	Photomicrograph of Porphyritic Basalt showing plagioclase phenocrysts (Crossed Nicols, X50).	79

PLATE		PAGE
4.9	Photomicrograph showing ophitic texture in Dolerite (Crossed Nicols, X50).	81
4.10	Photomicrograph showing textural characters of Andesite (Crossed Nicols, X50).	81
4.11	Photomicrograph showing textural characters of coarse grained Gabbro (Crossed Nicols, X200).	82
4.12	Photomicrograph showing coroded quartz and plagioclase in Rhyolite (Crossed Nicols, X50).	83
4.13	Photomicrograph showing lobed plagioclase phenocryst in Dacite (Crossed Nicols, X50).	83
4.14	Air compressor drilling with Jack hammer, Deccan Trap Quarry, Udwada, Valsad district.	88
4.15	Mundani prepared out of Amygdaloidal Basalt, Gondal, Rajkot district.	88
5.1	Taranga temple (Mehsana district) made up of Himatnagar Sandstone.	100
5.2	Photomicrograph of medium grained Sandstone showing siliceous matrix (Crossed Nicols, X50).	107
5.3	Photomicrograph of medium grained Sandstone showing ferruginous matrix (Crossed Nicols, X50).	109
5.4	Photomicrograph of fine grained Sandstone showing calcareous matrix (Crossed Nicols, X50).	107
5.5	Sandstone quarry, Dhrangadhra, Surendranagar district.	109

PLATE		PAGE
5.6	Sandstone quarry, Himatnagar, Sabarkantha district.	113
5.7	Sandstone quarry, Bhuj, Kachchh district.	113
5.8	Photograph of Morvi Palace (Rajkot district) made up of Dhrangadhra Sandstone.	116
6.1	Somnath temple (Junagadh district) made up of Miliolite Limestone.	121
6.2	Kirti Mandir (Junagadh district) made up of Miliolite Limestone.	124
6.3	Close view of Kirti Mandir (Junagadh district)	124
6.4	Photograph showing cross stratification in Miliolite Limestone, Dungarpur quarry, Junagadh district.	128
6.5	Microphotograph of Miliolite Limestone (Crossed Nicols, X50).	129
6.6	Miliolite limestone quarry, Madhavpur, Junagadh district.	129
6.7	Miliolite limestone quarry, Ranavav, Junagadh district.	133
7.1	Kadana Dam (Panchmahals district) showing use of Quartzite as Rubble.	140
7.2	Photomicrograph showing compact and equigranular Texture in Quartzite (Crossed Nicols, X50).	145
7.3	Flaggy Quartzite quarry, Veganagar, Panchmahals district.	145

PLATE		PAGE
7.4	Quartzite quarry, Kadana Dam, Panchmahals district.	150
7.5	Quartzite rubble carried by labourers from storage yard, Kadana Dam, Panchmahals district.	150
8.1	Jain temple of Dilwara (Mt. Abu) constructed with help of Ambaji Marble.	155
8.2	Photomicrograph showing granoblastic texture in Marble (Crossed Nicols).	160
8.3	Marble quarry, Ambaji, Banaskantha district.	160
8.4	Marble quarry, Chuchhapura, Vadodara district.	167
8.5	Photograph showing outcrop of Andhav limestone, Andhav, Kachchh district.	167
9.1	Photomicrograph showing texture of Phyllite (Crossed Nicols, X50).	181
