List of Tables

Sr. No.	Title	Page No.
CHAPTER I	**Introduction**	**1-93**
Table 1	Clinical distinction between the segmental and non-segmental forms of vitiligo and their various characteristics and prevalence	5
Table 2	Reports on H_2O_2 in vitiligo	17
Table 3	Oxidative stress and Antioxidant status in vitiligo patients	19
Table 4	Reports of various polymorphisms in vitiligo patients and controls	32
Table 5	List of TNF-α antagonists used as biologics in clinical trials for Vitiligo therapy	50
CHAPTER III	**To Study the Transcript Levels of the Immune Regulator Genes: *TNFA, IL1A, IL1B, IL4, IL6, IL10, IL1R1, IL1RN* and *IFNG* in Vitiliginous and Control Skin**	**108-130**
Table 1	Demographic characteristics of vitiligo patients and unaffected controls recruited for skin sample collection	111
Table 2	Details of primers used for expression of various candidate genes	112
Table 3	Analysis of transcripts levels of candidate genes in vitiligo patients and controls (n=12)	123
CHAPTER IV	**To Study the Effect of Interleukins on *in vitro* Cultured Melanocyte Cell Death, Expression of Melanin Synthesis Genes and Immunoregulatory Genes.**	**131-172**
Table 1	Demographic details of control and vitiligo patients (Histopathological studies)	132
Table 2	Primer sequences used for gene expression analysis	138
CHAPTER V	**Effect of Receptor Activation of *TNFR1, IL1R1, IL6R* and *IL10R* upon Treatment with *TNF-α, IL-1α, IL-6 and IL-10* Respectively on *in vitro* Cultured Melanocytes**	**173-195**
Table 1	Primer sequences used for gene expression analysis	178
Table 2	Details of Antibodies used for cytokine receptor analysis	180
CHAPTER VI	**To Study the Role of PARP upon H_2O_2 Stimulation of *in vitro* Cultured Melanocytes**	**196-212**
Table 1	Primer sequences used for gene expression analysis	198
CHAPTER VII-A	***IL1RN* intron 2 VNTR and Vitiligo Susceptibility**	**213-238**
Table 1	Demographic characteristics of vitiligo patients and unaffected controls	215
Table 2	Primers used for genotyping and gene expression analysis	217
Table 3	Different alleles of IL1RN intron 2 VNTR (rs2234663) polymorphism	218

Table 4	Distribution of genotypes and alleles for IL1RN intron 2 VNTR (rs2234663) in vitiligo patients and controls from Gujarat population	223
Table 5	Distribution of genotypes and alleles for IL1RN intron 2 VNTR (rs2234663) in active and stable vitiligo patients & controls from Gujarat population	224
Table 6	Distribution of genotypes and alleles for IL1RN intron 2 VNTR (rs2234663) in generalised and localized vitiligo patients & controls from Gujarat population	226
Table 7	Distribution of genotypes and alleles for IL1RN intron 2 VNTR (rs2234663) in male and female vitiligo patients from Gujarat population	229
CHAPTER VII-B	**Role of *IL10* in Vitiligo Susceptibility**	**239-259**
Table 1	Demographic characteristics of Gujarat vitiligo patients and controls	240
Table 2	Primers and restriction enzymes used for expression and genotyping of IL10 promoter -819 (C/T; rs1800871); -592 (C/A; rs1800872) and -1082 (G/A; rs1800896) SNPs.	241
Table 3	Distribution of IL10 -819 C/T (rs1800871) polymorphism in Gujarat vitiligo patients and controls	245
Table 4	Distribution of IL10 -592 C/A (rs1800872) polymorphism in Gujarat vitiligo patients and controls	246
Table 5	Distribution of IL10 -1082 G/A (rs1800896) polymorphism in Gujarat vitiligo patients and controls	248
Table 6	Haplotype analysis of IL10 promoter -592 (C/A; rs 1800872), -819 (C/T; rs 1800871) and -1082 (G/A; rs 1800896) SNPs in Gujarat vitiligo patients and controls	248
Table 7	Reports on IL10 expression in vitiligo patients	256
CHAPTER VII-C	**Investigating Association of Promoter Polymorphisms *(-174 G/C)* and *(-572 G/C)* and Transcript levels of Interleukin-6 and Vitiligo in Gujarat**	**260-282**
Table 1	Demographic characteristics of vitiligo patients and unaffected controls	262
Table 2	Primers used for gene expression and polymorphism analysis	263
Table 3	Distribution of Genotypes and Alleles for IL6 -572 G/C (rs1800796) and -174 G/C (rs1800795) in vitiligo patients and controls from Gujarat	267
Table 4	Association of IL6 SNP in male and female vitiligo patients of Gujarat population	269
Table 5	Distribution of Genotypes and Alleles for IL6 -572 G/C (rs1800796) in patients with active and stable vitiligo from Gujarat	270
Table 6	Association of IL6 SNPs in patients, with generalized and localized vitiligo from Gujarat	271

Table 7	Reports on IL6 levels in vitiligo	274
Table 8	IL6 promoter polymorphisms and correlation with other diseases	276
