TABLE OF CONTENTS

CHAPTER 1…….....1-59

1.1 FEMALE REPRODUCTIVE SYSTEM…….…2

1.1.1 Development and maturation of Ovarian follicle……...….3

1.2 REGULATION BY HYPOTHALAMUS-PITUITARY-OVARIAN (HPO) AXIS……...6

1.2.1 Reproductive cycle and its regulation by HPO axis.....….....7

1.3 STEROID HORMONES PRODUCED BY STEROIDOGENESIS PROCESS…….9

1.3.1Key proteins in pathway of steroidogenesis……...…11

1.3.1.1 Steroidogenic acute regulatory protein (StAR)……...…11

1.3.1.2 Cholesterol side-chain cleavage enzyme (P450 scc)……..12

1.3.1.3 17α-hydroxylase/17, 20 lyase…….....12

1.3.1.4 Hydroxysteroid dehydrogenase/isomerise……..13

1.3.1.5 17 βeta- Hydroxysteroid dehydrogenases……...14

1.3.1.6 P_{450} aromatase……15

1.4 REGULATION OF STEROIDOGENESIS……16

1.5 ROLE OF STEROIDS HORMONES……17

1.5.1 Progesterone……...18

1.5.2 Androgen……18

1.5.3 Estrogen……19

1.6 ROLE OF STEROID RECEPTORS…….....20

1.7 FERTILIZATION.....…..22

1.8 CAUSES OF FEMALE INFERTILITY……...……23

1.9 FACTORS AFFECTING HPO AXIS.....…...24

1.10 POLYCYSTIC OVARIAN SYNDROME (PCOS)……...……25

1.10.1 Prevalence of PCOS (Worldwide and India)……...……26

1.10.2 Pathophysiology of PCOS……...……27

1.10.3 Animal models for polycystic ovarian syndrome (PCOS)……..…34

1.10.3.1 Androgen induced PCOS rat model……..35

1.10.3.2 Estradiol benzoate and Estradiol valerate…….....38

1.10.3.3 Antiprogestins……...……39

1.10.3.4 Aromatase inhibitors…… 39
1.10.4 Current therapies for PCOS.....…...40
1.11 MEDICINAL PLANTS.....…...41
1.11.1 *Aloe vera*.....…...41
1.11.1.1 CLINICAL EFFICACY AND MECHANISM OF ACTION.....…...43
2. REFERENCES…….51
CHAPTER 2……..60-64
2.1 RATIONALE OF THE STUDY……..…61
2.2 OBJECTIVES……62
2.3 REFERENCES……...63
CHAPTER 3…….65-102
3.1 MATERIALS……...…66
3.1.1 ANIMALS.....…...66
3.1.2 CHEMICALS.....…...66
3.2 METHODOLOGY……..……67
3.2.1 INDUCTION OF PCOS RAT MODEL……...…67
3.2.2 ORAL GLUCOSE TOLERANCE TEST (OGTT)……67
3.2.3 ESTRUS CYCLE……68
3.2.4 HORMONAL PROFILE……..……69
3.2.5 HISTOLOGICAL ANALYSIS.....…...69
3.2.6 3 BETA- AND 17 BETA-HYDROXY STEROID DEHYDROGENASE……...……70
3.2.7 PROTEIN ESTIMATION…….……71
3.2.8 ALKALINE PHOSPHATASE (ALP)……...72
3.2.9 CATHEPSIN– D……73
3.2.10 UDP-GLUCURONYL TRANSFERASE……74
3.2.11 HYDROXY STEROID OXIDOREDUCTASE (HSOR) ……75
3.2.12 GLUTATHIONE-S-TRANSFERASE (GST)……77
3.2.13 LIPID PROFILE……..78
3.2.13.1 Triglycerides……78
3.2.13.2 Cholesterol……79

3.2.13.3 HDL-cholesterol……...80

3.2.13.4 LDL cholesterol……81

3.2.14 SERUM GLUTAMATE PYRUVATE-TRANSAMINASE (SGPT) ACTIVITY……..81

3.2.15 SERUM CREATININE……...82

3.2.16 GRANULOSA CELL ISOLATION……83

3.2.17 RNA ISOLATION BY TRIZOL METHOD……...84

3.2.18 RT PCR (REVERSE TRANSCRIPTASE POLYMERASE CHAIN REACTION).....85

3.2.19 SDS PAGE AND WESTERN BLOT (WB)……87

3.2.20 PREPARATION OF ALOE VERA EXTRACT…….91

3.2.21 PREPARATION OF THE PETROLEUM ETHER EXTRACT (P1)…….92

3.2.22 PHYTOCHEMICAL SCREENING……92

3.2.23 QUANTIFICATION OF MAJOR PHYTOCHEMICAL CONSTITUENTS OF ALOE VERA GEL…….95

3.2.23.1 Estimation of total flavonoids……...95

3.2.23.2 Estimation of total phenolics……96

3.2.23.3 Estimation of total sterols…….96

3.2.24 THIN LAYER CHROMATOGRAPHY (TLC)…….96

3.2.25 HIGH PERFORMANCE THIN LAYER CHROMATOGRAPHY (HPTLC)……. 98

3.2.25.1 Instrumentation……... 98

3.2.25.2 Chromatographic condition…… 98

3.2.25.3 Sample preparation……. 98

3.2.25.4 Preparation of Standard working solutions for Assay…… 99

3.2.25.5 Sample Application…… 99

3.2.25.6 Method development…….. 99

3.2.25.7 Method validation…….. 99

3.2.26 HIGH PRESSURE LIQUID CHROMATOGRAPHY (HPLC)……100

3.2.26.1 Chromatographic condition for HPLC……100

3.2.26.2 Preparation of Standard and Sample solution…….101

3.2.26.3 Sample application……..101

3.2.27 GAS CHROMATOGRAPHY AND MASS SPECTROSCOPY (GC-MS) ……101

3.2.27.1 Instrumentation……...101

3.2.27.2 Sample application……..101
3.2.27.3 Characterization of unknown compound……102
3.3 REFERENCES……...102

CHAPTER 4…….103-132

4.1 INTRODUCTION……..104
4.2 MATERIALS AND METHODS…… 105
4.2.1 PLAN OF WORK……..105
4.2.2 DEVELOPMENT OF PCOS RAT MODEL……..106
4.2.3 ALOE VERA GEL (AVG) TREATMENT ……...106
4.3 RESULTS……..106
4.3.1 DEVELOPMENT OF PCOS RAT MODEL……..106
4.3.2 ALOE VERA GEL TREATMENT……108
4.3.3 BODY WEIGHT…….110
4.3.4 ORAL GLUCOSE TOLERANCE TEST (OGTT)……. 112
4.3.5 TOXICITY STUDY……115
4.3.6 ESTRUS CYCLICITY……116
4.3.7 STEROIDAL ENZYME ACTIVITY…….118
4.3.8 HORMONAL PROFILE…….123
4.3.9 OVARIAN HISTOLOGICAL STUDY……..124
4.4 DISCUSSION….…….126
4.5 CONCLUSION……..129
4.6 REFERENCES……...130

CHAPTER 5…….133-171

5.1 INTRODUCTION……..134
5.2.1 ALOE VERA GEL EXTRACTION……..140
5.2.2 PLAN OF WORK……..141
5.2.3 ANIMALS TREATMENT…….....142
5.3 RESULTS……..143
5.3.1. 5TH – 8TH DAY PARAMETERS…….144
5.3.2. 18TH – 20TH DAY PARAMETERS…….148

5.4 DISCUSSION…….162

5.5 CONCLUSION……...166

5.6 REFERENCES……....166

CHAPTER 6…….172-195

6.1 INTRODUCTION…….……..173

6.2 MATERIALS AND METHODS……174

6.2.1 COLLECTION AND AUTHENTICATION OF PLANT SAMPLE……..174

6.3 RESULTS……...177

6.3.1 PRELIMINARY PHYTOCHEMICAL ANALYSIS OF ALOE VERA GEL……177

6.3.2 HIGH PRESSURE THIN LAYER CHROMATOGRAPHY-METHOD DEVELOPMENT AND OPTIMIZATION ……...180

6.3.2.1 HPTLC fingerprint analysis of Lupeol…….180

6.3.2.2 HPTLC Method Validation……..180

6.3.2.3 Linearity plots and detection limits……..181

6.3.2.4 Precision, accuracy and robustness……..182

6.3.3. HIGH PRESSURE LIQUID CHROMATOGRAPHY (HPLC) ANALYSIS OF ALOE VERA GEL……...182

6.3.3.1 HPLC ANALYSIS OF P1 FRACTION OF ALOE VERA GEL ……187

6.3.4. CHARACTERIZATION OF P1 FRACTION OF ALOE VERA GEL USING GC-MS/MS TECHNIQUE…….189

6.4 DISCUSSION…….…….193

6.5 CONCLUSION…….……...194

6.6 REFERENCES……...194

CHAPTER 7…….196-227

7.1 INTRODUCTION……..197

7.2 MATERIALS AND METHODS…….200

7.2.1 PREPARATION OF P1 FRACTION FROM ALOE VERA GEL ……...…….200

7.2.2 PLAN OF WORK……...201

7.2.3 ANIMAL TREATMENT……202

7.2.3 BIOCHEMICAL PARAMETERS …….202

7.3 RESULTS……...203

7.4 DISCUSSION…….217
7.5 CONCLUSION……...222
7.6 REFERENCES……...223

CHAPTER 8…….228-236

8.1 SUMMARY……229
8.2 CONCLUSION……...233
8.3 REFERENCES……...235
