LIST OF TABLES

Table No.	Title	Page No.
1.1	Patents on metal nanoparticles and biologicals	27
1.2	Examples of nano-carrier based drugs in the market	29
1.3	Nanoparticulars systems in clinical development	30
1.4	Companies commercializing nanomaterials for diagnostic and therapeutic applications	31
5A.1	Zeta potential of gold nanoparticles synthesized using different concentrations of gellam gum	64
5B.1	Assignment of Wistar rats for 28 days oral toxicity studies.	74
5B.2	Assignment of Wistar rats in 28 days oral toxicity studies	79
5B.3	Effect of gellan gum reduced gold nanoparticles on body weight of male rats during 28 days study period	79
5B.4	Effect of gellan gum reduced gold nanoparticles on food consumption of rats during 28 days study period	79
5B.5	Effect of gellan gum reduced gold nanoparticles on hematocrit level in rats after 28 days treatment	80
5B.6	Effect of gellan gum reduced gold nanoparticles on hemoglobin level in rats after 28 days treatment	80
5B.7	Effect of gellan gum reduced gold nanoparticles on red blood corpuscles count in rats after 28 days treatment	81
5B.8	Effect of gellan gum reduced gold nanoparticles on white blood corpuscles count in rats after 28 days treatment	81
5B.9	Effect of gellan gum reduced gold nanoparticles on erythrocyte sedimentation rate in rats after 28 days treatment	81
5B.10	Effect of gellan gum reduced gold nanoparticles on differential leukocyte count in male rats after 28 days treatment	82
5B.11	Effect of gellan gum reduced gold nanoparticles on differential leukocyte count in female rats after 28 days treatment	82
5B.12	Effect of gellan gum reduced gold nanoparticles on liver enzymes of male rats after 28 days treatment	83
5B.13	Effect of gellan gum reduced gold nanoparticles on liver enzymes of female rats after 28 days treatment	83
5B.14	Effect of gellan gum reduced gold nanoparticles on blood sugar level in rats after 28 days treatment	84
5B.15	Effect of gellan gum reduced gold nanoparticles on bilirubin and cholesterol on rats after 28days treatment	84

Table No.	Title	Page No.
5B.16	Effect of gellan gum reduced gold nanoparticles on total protein and albumin on rats after 28 days treatment	85
5B.17	Effect of gellan gum reduced gold nanoparticles on kidney function test of male rats after 28 days treatment	85
5B.18	Effect of gellan gum reduced gold nanoparticles on kidney function test of female rats after 28 days treatment	85
5B.19	Effect of gellan gum reduced gold nanoparticles on organ weight of rats after 28 days treatment	87
