LIST OF FIGURES

NO	FIGURE			PAGE
1	I.1		Physical sub-civisions of Nepal (After Toni Hagen)	4
2	I.2		Location Map	10
3	II.1		The general subdivision in the Himalayas	25
4	II.2	A.	Sketch map showing the distribution of various tectonic units of Nepal (Hagen, 1969)	36
		B.	Geological cross section through Kathmandu valley (Hagen, 1969)	36
		C.	Geological cross section through Kathmandu valley (Hashimoto)	36
5	II.3		Geological cross sections of Central West Nepal (Fuchs, 1967, Hagen, 1969)	38
6	II.4		Geological cross sections through Nepal Himalaya (Terman, 1974)	55
7	II.5		Geological cross sections of Central West Nepal (Nadgir & Nanda, 1966, Sako et al. 1973)	61
8	III.1		Regional Geological Setting	70
9	III.2		Geology of Phalebas Bihadi section of Kali Gandaki valley, Nepal	71

NO	FIGURE		PAGE
10	III.2A*	Geological map of Kusma-Bihadi section of Kali Gandaki valley, Central West Nepal (compiled from the works of B. N. Upreti and T. Sharma)	
11	IV.1	Relation between the weight percent of Na_2O and K_2O.	114
12	IV.2	Classification of sandstones (Pettijohn et al., 1973)	120
13	IV.3	Classification of sandstones (Pettijohn et al., 1973)	121
14	IV.4	Classification of sandstones (Folk et al. 1970)	122
15	V.1	Foliation trend map	142
16	V.1A*	Foliation trend map of Kusma-Bihadi section of Kali Gandaki valley, Central West Nepal (compiled from the works of B. N. Upreti and Toran Sharma)	
17	V.2	Lineation trend map	146
18	V.3	Sketch map showing the sub-areas	158
19	V.4	Stereograms showing the structural elements of sub-area I	160
20	V.5	Stereograms showing the structural elements of sub-area II	162

* At the back pocket of the thesis.

NO	FIGURE		PAGE
21	V.6	Stereograms showing the structural elements of sub-area III	164
22	V.7	Stereograms showing the structural elements of sub-area IV	166
23	V.8	Stereograms showing the structural elements of sub-area V	167
24	V.9	Stereograms showing the structural elements of sub-area VI	169
25	V.10	Stereograms showing the structural elements of sub-area VII	170
26	V.11	Stereograms showing the structural elements of sub-area VIII	172
27	V.12	Stereograms showing the structural elements of sub-area IX	173
28	VII.1	Triangular diagram of dolomites based on $CaO-MgO-SiO_2$ weight percent	205
29	VII.2	X-Ray diffractogram of dolomite	208
30	VII.3	X-Ray diffractogram of dolomite	209
31	VII.4	D.T.A. curves of dolomite	210
32	VII.5	D.T.A. curves of dolomite	210
33	VII.6	D.T.A. curves of dolomite	210

NO	FIGURE		PAGE
34	VII.7	D.T.A. curves of dolomite	211
35	VII.8	D.T.A. curves of dolomite	211
36	VII.9	Distribution of carbonate rocks in Lesser Himalaya of Nepal	235
37	VII.10	Columnar and conical stromatolites	244
38	VIII.1	Chemical field of Kali Gandaki spilites with respect to $CaO-Na_2O-K_2O$ weight percent	280
39	VIII.2	Chemical field of Kali Gandaki spilites with respect to $(FeO + Fe_2O_3)-(Na_2O+K_2O)-MgO$	281
40	VIII.3	Chemical field of Kali Gandaki spilites with respect to Mg-Fe-Al cations	283
41	VIII.4	Chemical field of Kali Gandaki spilites with respect to Mg-Ca-Al cations	284
42	VIII.5	Chemical field of Kali Gandaki spilites with respect to Ca-Fe-Al cations	285
43	VIII.6	Kuno's diagram showing alkali basalt field of Kali Gandaki spilites	289
44	VIII.7	Relation between K_2O and Na_2O weight percent of Kali Gandaki spilites	290
45	IX.1*	Map showing drainage system	

---

* At the back pocket of the thesis.

NO	FIGURE		PAGE
46	IX.2	Map showing slope distribution	301
47	IX.3	Longitudinal profiles of Kali Gandaki river (A) and Luwa Khola (B)	311
48	IX.4	Longitudinal profiles of Bachha Khola (A) and Khahare Khola (B)	312
49	IX.5	Relation between number of channels and order of Kali Gandaki basin	313
50	IX.6	Relation between average length and channel order of Kali Gandaki basin	315
51	IX.7	Relation between drainage area and channel order of Kali Gandaki basin	317
52	IX.8	Relation between number of channels and channel order of Lami Khola basin	319
53	IX.9	Relation between average length and channel order of Lamai Khola basin	320
54	IX.10	Relation between average drainage area and channel order of Lamai Khola	321
55	IX.11	Longitudinal profiles of Lamai Khola (A) and Seti Khola (B)	325
56	IX.12	Longitudinal profiles of Chirdi Khola (A), Khalti Khola (B) and sub-basin-G (C)	326
57	IX.13	Relation between number of channels and channel order of Seti Khola basin	333

NO	FIGURE		PAGE
58	IX.14	Relation between number of channels and average length of Seti Khola basin	334
59	IX.15	Relation between average drainage area and channel order, Seti Khola basin	336
60	IX.16	Terraced gravel deposits of Kali Gandaki valley	342
61	IX.17	Cross section of gravel deposits of Phalebas (A,B)	351
62	IX.18	Cross section of gravel deposits of Bihadi (A)and Karnas (B)	354
