

ACKNOWLEDGMENT

I express my deep sense of gratitude to my research supervising guide *Dr. Kauresh D Vachbrajani*, Professor, Department of Zoology, for his priceless guidance, endurance, and constant inspiration throughout my Ph.D. tenure. His dynamic personality and immense knowledge always encouraged me and gave me the strength to step forward and to complete the work in a better way. He has always given me complete freedom to explore my ideas, and at the same time, he provided the proper guidance to recover when my steps faltered. He has always given me all the freedom to pursue my research while silently and non-obtrusively ensuring that I stay on course and do not deviate from the core of my research.

I would like to thank *Dr. Dolly Kumar*, Head, Department of Zoology, for her help and guidance through all the important stages of my work. I would also like to thank wholeheartedly to *Dr. P. C. Mankodi* and *Dr. Pragna Parikh*, Professor, Department of Zoology, for providing the Lab facilities during my molecular biology work. I want to thank all the teaching staff, Department of Zoology, who have directly or indirectly been involved in completing my research work. In addition to the above, I would extend my thanks to all the supporting non-

teaching staff members *Late Sangit Bhai, Hitesh Bhai, Shailesh Bhai, Hemant Bhai, Rajesh Bhai, Gulab Bhai, and Mrs. Urmila Patel* in various administrative tasks.

I am grateful to all the scientists *Dr. Sammy De Grave, Dr. Arthur Anker, and Dr. KV Jayachandran*, who helped me with the species level confirmation. My heartfelt thanks to *Dr. Jaychandran Das* for helping me develop the networking and contacts with the fishermen community and provide me brief knowledge about commercial shrimps during my first trip to Veraval. All the local fishermen community and friends helped me during the sampling of commercial species.

I would like to thank my best friend *Mr. Vipin Ranga*, for his support during the entire Ph.D. My senior, *Dr. Jignesh Trivedi*, helped me in the initial phase of my Ph.D. work and introduced me to the fundamental lesson of taxonomy. I want to thank all my lab mates *Mr. Gunjan Soni, Mrs. Gargi Vaidya, and Mr. Swapnil Gosavi*, for the help during the sampling and field trips. For drawings, I am thankful to *Mr. Parth Patel, Mr. Mayur, and Mrs. Dhruva Trivedi* for making the sketches of prawns and shrimps. I want to thank *Bhumi Thakar* and *Pinal Shah* for helping in the molecular work. I would also like to thank *Ms. Jalpa Jadeja* for making GIS maps of my study sites. I would also like to thank *Dr. Kangkan Sarma*, and *Dr. Khushali Pandya* for continuous encouragement during my research work.

I would like to thank GSBTM, who introduced me to DNA barcoding techniques. I want to thank the University of Grant Commission, New Delhi, for providing me with the UGC-BSR fellowship to carry out my Ph.D. research work under the RFSMS scheme.

I would like to thank *my parents* for their constant encouragement, love, and support throughout my research work. My heartfelt thanks to *my sisters* and *brother* for their immense support, which strengthened me during my difficult time and achieved this goal. The constant support of my family is greatly acknowledged, without which I would not have been able to complete my dream.

I owe my special thanks to my fiancée *Mr. Laveesh Purohit* for his care and support during my thesis writing. I am also thankful to *Dipti ma'am* for her love and affection. Last but not least, my sincere thanks to all my friends, family members, and acquaintances, who supported me either directly or indirectly during my Ph.D. research work.

Barkha Purohit
