Acknowledgment

First and foremost, I offer my thanks to my supervisor, **Dr. Hemant P. Soni,** Associate professor, Department of Chemistry, Faculty of science, the Maharaja Sayajirao University of Baroda. No words can express my profound sense of gratitude to my supervisor, who patiently supported, and guided me in all stages of this journey, and for trusting in me throughout my doctoral program. He always gave me constant encouragement and assistance, despite his busy schedule. Without his coherent and illuminating instruction, this thesis would not have reached its present form.

I express my gratitude to **Prof. Bhavana Trivedi** to carried out the cyclic voltammetry analysis and for her needful suggestions and discussions during the analysis. I am grateful to **Prof. N.D. Kulkarni** and **Dr. Amar Bhallabh** for their help whenever we needed it. I take this as a great opportunity to express in debt thanks to **all the faculty members** who have helped me during this course of time.

I gratefully acknowledge the Maharaja Sayajirao University of Baroda, for financial support in terms of the University Research Scholarship (no. ADM/3/16119/697, dated 14/03/2018). I acknowledge Science & Engineering Research Board (SERB), New Delhi, India, for financial support under a sponsored scheme (no. EMR/2016/007638).

My heartfelt thanks to DST-FIST for providing the BET surface area measurement and NMR facilities in the Department of Chemistry, Faculty of Science, The M. S. University of Baroda. I express my heartfelt gratitude to all instrument committee members especially **Mr. Ajay Patel**, and **Ms. Rina Soni**, for their support.

I am thankful to **MRC, MNIT Jaipur**, to provide the best techniques like PXRD, FESEM, HRTEM, and LC-MS without any delay. I am thankful to CIF, IIT Guwahati for the VSM analysis. I am also thankful to **CSMCRI-Bhavnagar** for the HRTEM analysis.

I am Special thankful to **Dr. Love Dashairya (NIT Rourkela)** for SEM mapping, for PXRD and EDS analysis, **Yogesh Kumar Sonia (NIT Jaipur)** for the Electrochemical impedance analysis and for providing me a software in data fitting, **Dr. Anand Somvansi (Aligarh Muslim University)** for the Rietveld analysis.

I am thankful to **Mrs. Prianka Salunke**, **Mr. Aditya Puranik**, **Dr. Kiran Nakum, and Ms. Komal Kolte** department of chemistry for helping me in my UV- Study.

I would also like to extend my thanks to my Seniors **Mr. Sanjiv Tomer, Mr. Hemanshu Patel Dr. Namrata Dixit, and Dr. Ekta Shah,** for discussing this doctoral work. In my daily work, I have been blessed with a friendly and cheerful group. I would like to expand my thanks to my fellow researchers **Mr. Jagrut, Ms. Mahima Rabari, Mr. Sudhir Kataria, Mrs. Kulsum, Mr. Kanu Barad,** and my all labmates.

I thank my friends **Dr. Meeta Bhati**, **Dr. Mitlesh Yadav**, and **Dr. Riddhi Gupta** for their constant support, and encouragement and for being my friends.

I would like to acknowledge my family members my Father In-law **Dr. Mahesh Gupta**, my mother-in-law **Mrs. Asha Gupta**, and my husband **Er. Sunny Gupta**, my beloved parents Mr. **Mohan Lal Gupta and Mrs. Asha Gupta**, my siblings, and my cousins for their confidence and their love during all these years. Without the support of my family members, I would never complete this journey and I would never find the courage to overcome all these difficulties during this work. My thanks go to My husband Mr. Sunny Gupta, I value him as a friend and partner and am forever appreciative of his actions.

Last but not least; I wish to express my gratitude to those who may have contributed to my work directly or indirectly even though they remain anonymous.

NeelamKumari Gupta
