ACKNOWLEGEMENTS

I owe my deep and profound indebtness to my guide Dr. Dharmendra G. Shah, The Maharaja Sayajirao University of Baroda for his inspiration and constructive criticism. He gave my liberty and freedom to think and work my own way.

I express my gratitude to Dr. N.S.R. Krishnayya, Head Department of Botany and also our former Head, Dr. Sandhya Kiran Garge for extending all the laboratory facilities to me.

I am thankful to Forest department, Government of Gujarat for permitting to carry out fieldwork in the forest areas and wildlife sanctuaries of Gujarat. Especially, Dr. A. J. Khan (Retired, IFS), Dr. Sasikumar (CF, Social Forestry, Bharuch), Shri Ramkumar (APCCF, Social Forestry, Gandhinagar) and Shri G. Ramana Murthy (CCF, Working Plan, Surat). I would also like to thank all the field staffs like RFOs, Foresters and Guards who had helped me during the field work.

I express gratitude to the Gujarat Biodiversity Board and Gujarat Ecological Education and Research (GEER) foundation , Gandhinagar for financial assistance during the course of my work.

I also thankful to the Dr. A.K. Asthana, Senior Principal Scientist, National Botanical Research Institute, Lucknow for imparting training in identification of bryophytes and also for confirmation of doubtful specimens. Thanks is also due to Dr. Vinay Sahu in guiding me in identification of bryophytes.

I would also like to thank Gujarat State Biotechnology Mission (GSBTM), Government of Gujarat, Gandhinagar for providing the facilities for molecular studies in initial phase of research.

I am also grateful to Librarian, Smt. Hansa Mehta Library (Vadodara) for permitting to refer the literatures in the library.

My thank goes to Dr. P.S. Nagar and Dr. K. S. Rajput, Botany department, The Maharaja Sayajirao University of Baroda for providing the laboratory facilities to carry out my research.

I am thankful to Dr. K. S. Rajput and Dr. (Mrs.) Aruna Joshi, Botany department, The Maharaja Sayajirao University of Baroda for being an excellent mentor in my departmental Course work.

I also acknowledge teaching staff of Botany department, The Maharaja Sayajirao University of Baroda, Gujarat, for their encouragement and support in my work.

I am thankful to non-teaching staff of Botany department, The Maharaja Sayajirao University of Baroda for their support and cooperation.

I express my deep gratitude for Mrs. Shruti Shah and my senior ShreestutiKhare for her motivation and moral support.

I would express my gratefulness to Dr. Ketan Tatu (Senior Scientist, GEER Foundation) for his motivation and support especially in the special leave for my Ph. d field work. Also thanks is due to Mr. Vikram Singh (Manager, Projects) for his support in the special leave.

I am deeply thankful to my friends and colleagues Disha Mehta, Karan Rana, Ajit Vasava, Mittal Bhatt Amit Gondaliya, Ronak Patel, Ravi Patel and Ashutosh Pathak for all their support in my journey of Ph.D.

I am also thankful to my senior Shreestuti Khare for her help and support during my initial days of research.

I have also thankful to all my colleagues and Staff of GEER Foundation for their support.

Finally, I am very grateful to my parents, my sisters, my brother in law and my sweet niece (Sayali) for motivating and also the support they provided in this long journal of PH.D

Thanks are also due to all those who had directly or indirectly helped me in my research but whose have not been mentioned by name.
