Acknowledgment

First and foremost, I would like to express my gratitude to **Dr. Hemant P. Soni**, Associate professor, Department of Chemistry, Faculty of Science, The Maharaja Sayajirao University of Baroda. No words can adequately describe my thanks to him, who has patiently supported and directed me throughout this research journey, as well as having faith in me during my Ph.D. program. Despite his busy schedule, he was always encouraging and helpful to me. This thesis would not have progressed to its current state if it hadn't been for his clear and illuminating guidance.

I would like to thank to **Dr. Girish C. Behera**, R&D Manager, Condensation Polymers India, Solvay Research and Innovation Centre, Vadodara, being a co-guide for my research program, who allows me to pursue my higher education along with my professional assignments. He supported me by giving me freedom and allowing me appropriate time and guidance for the research. He granted permissions for analysis from the organisation.

I am grateful to **Prof. Ashutosh Bedekar** (current Head of the Chemistry Department)**, Prof. N. D. Kulkarni**, **Prof. S. R. Shah** and **Prof. Anjali Patel** (former Heads of the Department) for approving the permission of work in the laboratory after office hours. I take this as a great opportunity to express indebt thanks to **all faculty members** who have helped me in this course of time.

I acknowledge Science & Engineering Research Board (SERB), New Delhi, India, for support under a sponsored scheme (No. EMR/2016/007638).

My heartfelt thanks to DST-FIST for providing NMR facilities in the Department of Chemistry, Faculty of Science, The M. S. University of Baroda. I express my heartfelt gratitude to all instrument committee members especially **Ms. Rina Soni**, **Ms. Mayuri Sahiwal** and **Mr. Sudhir Kataria** for their support.

I express my gratitude to **Prof. Ashutosh Bedekar**, **Mr. Hiten Raval** and **Ms. Aastha** to support for the chiral HPLC characterization of the samples and for the needful suggestions and discussions for the analysis.

I am thankful to **Solvay Research and Innovation Centre, Vadodara**, to provide non-objection certificate (NOC) for pursuing Ph.D. and analytical support. My manager granted my leaves as per my requirements. Especial thanks to **Ms. Bijal Mathakar** (Director of Solvay R&I centre, Vadodara) and **Mr. Kaushay Patel** (Head of Analytical department, Solvay R&I centre, Vadodara).

I am thankful to **Sun Pharmaceutical Industries Ltd, Tandalja-Vadodara**, for Chiral HPLC analysis support despite of their busy schedule.

I would also like to extend my thanks to my colleagues **Mr. Sanjiv Tomer, Ms. Neelam Gupta, Mr. Shrish Wagh, Mr. Abhay Pandey, Ms. Bindi Sanghavi, Mr. Sudhir Kataria, Mr. Jagrut Barot** and **Ms. Kulsum Mondal** for technical and non-technical support throughout this academic journey and make pleasant research atmosphere.

Dr. Sanjiv Kumar and **Prof. A. V. Ramachandran** for their necessary suggestions and corrections in the manuscripts.

Last but not least; I wish to express my gratitude to those who may have contributed to my work directly or indirectly even though they remain anonymous.

My Family for their constant support to achieve my goal without affecting my social responsibilities.

Hemanshubhai Ashokbhai Patel
