Even though only one individual is likely to put the work into writing the PhD thesis, the support of all the people who have helped is what allows that PhD student to even begin writing. There are many incredible people to whom this theory owes its existence and without whom it would not have reached its peak. In the first place, I would like to express my profound gratitude to my guide **Prof. (Dr.) Anjali Patel** for introducing me to this fascinating topic of catalysis and for making every effort to facilitate the necessities for the study. Throughout the duration of my PhD research, her invaluable support and guidance have encouraged effective learning. Her guidance has helped me stay focused on completing my entire doctoral research over the last five years, which has been a constant challenge for me. Despite her sincere commitment to a number of other responsibilities as the former **Officiating Head** and a **Professor** of the Department, she has been consistently listening to my queries and made it a point to address them to the best of her ability. My perception of her has been significantly influenced by her enthusiasm, fundamental knowledge of research, and desire to produce work of the highest quality. This study and PhD thesis would not have been possible without her guidance, ongoing support, and regular feedback. Her editorial and technical guidance, as well as her general expertise of how academic research is conducted, were crucial to the successful finalization of this thesis. Her persistent courage and determination will always be an inspiration to me. I will always be thankful to her for ensuring my overall development as a person and assisting me in improving myself through our mentoring relationship.

Jay Patel

I would like to thank SERB (EMR/2016/005718, Delhi) for financial support in terms of project assistance.

My sincere thanks to Prof. Ashutosh Bedekar, present officiating Head, and Prof. Shailesh Shah, Prof. (Dr.) Anjali Patel, and Prof. N. D. Kulkarni, Former Head/s, Department of Chemistry, The Maharaja Sayajirao University of Baroda, Vadodara for providing infrastructure facility.

I am grateful to the following persons and institutions for their assistance during the different stages of my research work.

Solution NMR and BET	FIST – I, DST
TG–DTA and GC–MS	Department of Chemistry, The Maharaja Sayajirao University of Baroda
FT - Raman	Faculty of Science, The Maharaja Sayajirao University of Baroda
EDX Analysis	Prof. Vandana Rao, Metallurgy Department, The Maharaja Sayajirao University of Baroda
Powder XRD	CSMCRI, Bhavnagar
Solid state MAS NMR	SAIF, IIT - Bombay and IISc, Bengaluru
XPS	IIT-Kanpur
TEM, HRTEM and STEM	SAIF, IIT - Bombay

First of all, I would like to thank my beloved God Hanuman Ji, who has been my sole inspiration, and who's many blessings and guidance have made me who I am today. The thesis would not have come to a successful completion, without the assistance of certain people with whom I am indebted for their contribution in various stages of my work. Dr. Priyanka Solanki and Dr. Rajesh Sadasivan, for their enduring support in the lab and Dr. Anish Patel for his valuable counsels at the early stage of my research and being there whenever I needed his help and assistance. I thank them with all my heart. My earnest thanks to my colleague Ms. Dhruvi Pithadia, and my juniors Ms. Debatrayee Dasgupta and Ms. Margi Joshi for providing a jovial environment.

I am also thankful to all non-teaching staff especially Mrs. Apexa, Mrs. Revathi, Mr. Rane and Mr. Raval, Chemistry Department for their assistance throughout my research work.

I am thankful to friends and colleagues of the department, Dr. Rina Soni, Mr. Pratik Nariya, Mr. Rajdeep Pateliya, Dr. Kanu Katariya, Mr. Hiten Raval and Mr. Ajay Patel for their friendly behavior, help and support. A special thank you to all the teaching staff for their help and guidance during the course of my research work.

The most important support systems of my life have been my family. No amount of words would suffice to thank my parents for letting me follow my dream and inspiring me spiritually, yet always being there and having my back throughout. I am glad to express my gratitude to my wife, Hiral for her constant support and words of wisdom during my research tenure. Thank you my dear most brother Arpit for continuously encouraging me and pushing me to go on. Special thanks to my friends, whose words of encouragement have kept me going through the ups and downs of my odyssey.
