		ACKNOWLEDGEMENTS	I - II
		LIST OF TABLES	III
		LIST OF FIGURES	IV - V
I	GENERAL INTRODUCTION		1 - 25
II	CHEMOSYSTEMATIC STUDIES		26 - 69
	1.	MATERIALS AND METHODS	26 - 43
	2.	RESULTS	44 - 58
	3.	DISCUSSION	59 - 69
III	CLADISTICS OF THE RUBIACEAE		70 - 88
	1.	INTRODUCTION	70 - 72
	2.	METHODOLOGY	72 - 83
	3.	RESULTS AND DISCUSSION	84 - 88
IV	PHARMACOGNOSTIC STUDIES		89 - 178
	1.	INTRODUCTION	89 - 91
	2.	MATERIALS AND METHODS	92 - 93
	3.	PHARMACOGNOSTIC STUDIES OF:	
		1. *Adina cordifolia* (Roxb.) Benth. & Hook.f.-bark	94 - 97
		2. *Anthocephalus cadamba* Miq. - bark and leaf	98 - 102
		3. *Borreria hispida* Schum.-root	103 - 107
		4. *Gardenia* (Dikamali) - gum	108 - 111
		5. *Hymenodictyon excelsum* Wall.-bark	112 - 115
		6. *Ixora coccinea* Linn.- root	116 - 119
		7. *Ixora nigricans* Br. - leaf	120 - 123
		8. *Ixora parviflora* Vahl. - bark	124 - 127
		9. *Meyna laxiflora* Robyns - leaf	128 - 131
		10. *Morinda citrifolia* Linn. - leaf	132 - 135
		11. *Morinda tinctoria* Roxb. - root	136 - 139
		12. *Oldenandia corymbosa* Linn.- Whole plant	140 - 144

Page No.

13. Ophirrhiza mungos Linn. - root 145 - 148

14. Paederia foetida Linn. - Leaf and root 149 - 153

15. Pavetta indica Linn. - root 154 - 156

16. Plectronia didyma Kurz. - bark 157 - 160

17. Randia dumetorum Lamk. fruit 161 - 164

18. Rubia cordifolia Linn. - root 165 - 169

19. Stephegyne parvifolia Korth-bark 170 - 173

20. Xeromphis uliginosa (Retz.) Maheshwari - root 174 - 177

4. DISTINGUISHING PHARMACOGNOSTIC CHARACTERS 178

V SUMMARY AND CONCLUSIONS 179 - 184

BIBLIOGRAPHY 185 - 195

APPENDIX 196 - 203

1. The voucher numbers as well as the date and the places of collection of the plants screened 196 - 200

2. Reprint of the paper published 201 - 203
