Acknowledgement……..……..ii-iii

Chapter 1 Introduction 13-33

1.1 Medicinal Plants.....13

1.2 Importance of forest trees and threats to them.....15

1.3 Problems in tree propagation.....16

1.3.1 Importance of plant tissue culture in forest trees.....17

1.4 Tree tissue culture in past decades.....18

1.5 Applications of plant tissue culture.....19

1.5.1 Micropropagation of tree species.....20

1.5.2 Synthetic seed technology.....22

1.6 Rational for selection of *O.indicum* and *S.suaveolens* for study.....24

1.7 *Oroxylum indicum* (V.).....25

1.7.1 Distribution 25

1.7.2 Botanical description.....26

1.7.3 Chemical constituents.....26

1.7.4 Medicinal uses.....27

1.7.5 Mode of propagation and its problems in natural regeneration.....29

1.8 *Stereospermum suaveolens* (DC.).....29

1.8.1 Distribution.....29

1.8.2 Botanical description.....29

1.8.3 Chemical constituents.....30

1.8.4 Medicinal uses.....30

1.8.5 Mode of propagation and its problems in natural regeneration.....32

1.9 Objectives of study.....33

Chapter 2 Review of literature 34-54

2.1 Tissue culture of trees.....34

2.2 Seed germination studies.....38

2.2.1 Planting material.....38

2.2.2 Substrates.....38

2.3 Regeneration studies.....39

2.3.1 Role of explants in shoot regeneration.....40

2.3.1.1 Hypocotyl and Cotyledonary leaves explants.....40
2.3.1.2 Cotyledonary node explants.....40
2.3.1.3 Nodal explants.....41
2.3.2 Importance of medium in establishment of cultures.....42
2.3.3 Role of plant growth regulators in regeneration of shoots.....43
2.3.3.1 Effect of individual cytokinins.....43
2.3.3.2 Synergistic effect of cytokinins.....46
2.3.3.3 Synergistic effect of cytokinins and auxins.....47
2.3.4 Rooting of microshoots.....49
2.3.5 Hardening of plantlets.....50
2.4 Synthetic seed studies.....52
Chapter 3 Materials and Methods 55-77
3.1 Plant material and explant source.....55
3.2 Glasswares.....55
3.3 Chemicals.....55
3.4 Instruments and Equipments.....57
3.5 Media composition.....58
3.6 Preparation of MS and WPM stocks.....59
3.7 Preparation of PGRs stocks.....59
3.8 Medium preparation (MS/WPM).....60
3.9 Section I : Seed germination studies in *O.indicum* and *S.suaveolens*.....62
3.9.1 Seed treatment of *O.indicum and S.suaveolens* prior to germination.....62
3.9.2 Germination of *O.indicum* and *S.suaveolens* seeds in different substrates.....62
3.9.3 Growth parameters in *O.indicum*.....63
3.9.4 Germination parameters in *S.suaveolens*.....64
3.10 **Section II: Regeneration studies in *O.indicum* and *S.suaveolens*.....65**
3.10.1 Explant treatment.....65
3.10.2 Establishment of cultures.....65
3.10.3 Multiplication of shoots.....70
3.10.3.1 Multiplication through *in vitro* nodes.....70
3.10.3.2 Differentiation through morphogenic callus (Indirect organogenesis).....70
3.10.4 Rooting of microshoots.....71
3.10.5 Hardening of plantlets.....72
3.11 **Section III: Synthetic seed studies in *O.indicum* and *S.suaveolens*.....73**
3.11.1 Explant source.....73

3.11.2 Synthetic seed preparation.....73
3.11.3 Substrate for storage.....74
3.11.4 Storage period.....74
3.11.5 Encapsulation matrix and regenerative media.....74
3.12 Culture conditions.....77
3.13 Statistical Analysis.....77
Chapter 4 Results 78-250
4.0 *Oroxylum indicum*.....78
4.1 Section I : Seed germination studies.....78
4.1.1 Germination of *O.indicum* seeds in different substrates.....78
4.1.2 Effect of substrates on growth of *O.indicum* seedlings(Growth parameters).....81
4.2 Section II: Regeneration studies.....83
4.2.1 Establishment and multiplication of shoots.....84
4.2.1.1 Effect of individual cytokinins on shoot induction in MS and WPM medium from cotyledonary leaf explants.....84
4.2.1.2 Effect of individual cytokinins on shoot induction in MS and WPM medium from hypocotyl explants.....84
4.2.1.3 Effect of individual cytokinins on shoot induction in MS and WPM medium from cotyledonary node explants.....85
4.2.1.3.1 Multiplication of shoots from *in vitro* nodes in presence of individual cytokinins.....88
4.2.1.4 Effect of two cytokinins on shoot induction from cotyledonary node explants.....90
4.2.1.4.1 Multiplication of shoots from *in vitro* nodes in presence of two cytokinins.....94
4.2.1.5 Effect of cytokinin and auxin on shoot induction from cotyledonary node explants.....94
4.2.1.5.1 Multiplication of shoots from *in vitro* nodes in presence of cytokinins and auxins 96
4.2.1.6 Effect of individual cytokinins on shoot induction in MS and WPM medium from nodal explants.....98
4.2.1.6.1 Multiplication of shoots from *in vitro* nodes in presence of individual cytokinins.....101
4.2.1.7 Effect of two cytokinins on shoot induction from nodal explants.....101
4.2.1.7.1 Multiplication from *in vitro* nodes in presence of two cytokinins.....105
4.2.1.8 Effect of cytokinins with auxins on shoot induction from nodal explants.....110
4.2.1.8.1 Multiplication of shoots from *in vitro* nodes in presence of cytokinins and auxins.....114
4.2.2 Indirect organogenesis.....118

4.2.2.1 Individual cytokinin.....118
4.2.2.2 Synergistic effect of cytokinins.....121
4.2.2.3 Effect of cytokinins and auxins 121
4.2.2.4 Synergistic effect of cytokinins.....124
4.2.2.5 Effect of cytokinins with auxins.....126
4.2.3 Rooting of *O.indicum* microshoots.....126
4.2.4 Hardening of *O.indicum* plantlets.....131
4.2.4.1 Under lab conditions.....131
4.2.4.2 Under greenhouse conditions.....133
4.3 Section III: Synthetic seed studies 147
4.3.1 Effect of different concentration of sodium alginate and calcium chloride on formation of synthetic seed in both the species.....147
4.3.2 Effect of various encapsulation matrices on synseed germination in regenerative media with different storage period in *O.indicum*.....150
4.3.2.1 Effect of half and full strength WPM medium matrix on synseed germination.....150
4.3.2.2 Effect of half strength and full strength WPM medium matrix fortified with BAP (16µM) on synseed germination in *O.indicum*.....154
4.3.2.3 Effect of half and full strength WPM medium matrix fortified with BAP(16 µM)+IBA(0.1µM)on synseed germination in *O.indicum*.....156
4.3.3 Effect of substrates on synseeds germination.....160
4.3.3.1 Comparison of filter and agar substrate on synseeds germination of *O.indicum*.....161
4.4 *Stereospermum suaveolens*.....162
4.4.1 **Section I: Seed germination studies.....162**
4.4.1.1Germination of *S.suaveolens* in different substrates.....162
4.4.1.2 Germination parameters.....163
4.4.2 **Section II: Regeneration studies.....167**
4.4.2.1 Establishing and multiplication of shoots.....167
4.4.2.1.2 Effect of individual cytokinins on shoot induction in MS and WPM medium from cotyledonary leaf explants.....167
4.4.2.1.3 Effect of individual cytokinins on shoot induction in MS and WPM medium from hypocotyl explants.....168
4.4.2.1.4 Effect of individual cytokinins on shoot induction in MS and WPM medium from cotyledonary node explants.....168
4.4.2.1.4.1 Multiplication of shoots from *in vitro* nodes in presence of individual cytokinins.....171
4.4.2.1.5 Effect of two cytokinins on cotyledonary node explants.....176

4.4.2.1.5.1 Multiplication of shoots from *in vitro* nodes in presence of two cytokinins.....182

4.4.2.1.6 Effect of cytokinins and auxins on cotyledonary node explants.....183

4.4.2.1.6.1 Multiplication of shoots from *in vitro* nodes in presence of cytokinins and auxins.....187

4.4.2.1.7 Effect of individual cytokinins on shoot induction in MS and WPM medium from nodal explants.....187

4.4.2.1.7.1 Multiplication from *in vitro* nodes in presence of individual cytokinins.....190

4.4.2.1.8 Effect of two cytokinins on nodal explants.....198

4.4.2.1.8.1 Multiplication from *in vitro* nodes in presence of two cytokinins.....202

4.4.2.1.9 Effect of cytokinins and auxins on nodal explants.....208

4.4.2.1.9.1 Multiplication from *in vitro* nodes in presence of cytokinin and auxins.....210

4.4.3 Indirect organogenesis.....211

4.4.3.1 Individual cytokinin.....211

4.4.3.2 Synergistic effect of cytokinin.....213

4.4.3.3 Effect of cytokinins and auxins.....213

4.4.4 *In vitro* rooting of *S.suaveolens* microshoots 216

4.4.5 Hardening of plants in *S. Suaveolens*.....220

4.4.5.1 Under lab conditions.....220

4.4.5.2 Under greenhouse conditions.....222

4.4.6 **Section III: Synthetic seed studies.....232**

4.4.6.1 Effect of various encapsulation matrices on synseed germination in regenerative media with different storage period.....232

4.4.6.1.1 Effect of half strength and full strength MS medium matrix on synseed germination…….....232

4.4.6.1.2 Effect of half strength MS medium matrix fortified with BAP(20µM) on synseed germination.....237

4.4.6.1.3 Effect of half strength and full strength MS medium matrix fortified with Kn(8µM) on synseed germination.....239

4.4.6.1.4 Effect of half and full strength MS medium matrix fortified with TDZ(0.2µM) on synseed germination.....243

4.4.6.1.5 Effect of half and full strength MS medium matrix fortified with BAP(8µM) +TDZ(0.2µM) on synseed germination.....244

4.4.6.2 Effect of substrates on synseed germination.....248

4.4.6.2.1 A comparison of filter paper and agar substrate on germination of *S.suaveolens* synseed..... 249

Chapter 5 Discussion 251-275

5.1 Seed germination studies.....251

5.2 Regeneration studies.....253
5.2.1 Regeneration utilising different explants.....253
5.2.1.1 Establishment and multiplication of shoot cultures.....254
5.2.1.1.1 Effect of individual cytokinins on shoot induction.....254
5.2.1.1.2 Synergistic effect of two cytokinins on cotyledonary node and nodal explants.....259
5.2.1.1.3 Synergistic effect of cytokinins and auxins on cotyledonary node and nodal explants.....261
5.2.2 Indirect organogenesis.....263
5.2.3 *In vitro* rooting of *O.indicum* and *S.suaveolens* microshoots.....264
5.2.4 Hardening of plantlets.....267
5.3 Synthetic seed studies.....269
5.3.1 Effect of sodium alginate and calcium chloride concentration on synseed formation.....269
5.3.2 Effect of encapsulation matrix, medium strength, PGRs/regenerative medium on synseed germination.....271
5.3.3 Effect of storage on synseed germination.....273
5.3.4 Effect of substrates on synseeds germination.....274
Chapter 6 Summary and Conclusion.....276-277
Chapter 7 Bibliography.....278-317
