LIST OF FIGURES

Sr. No.	Figure Name	Page No.
1	The function of essential and non-essential elements in organisms	39
2	Map of Gujarat	49
3	Google earth image of selected study area of Baroda District	49
4	Site 1: Harni pond, Vadodara	50
5	Site 2: Gotri pond, Vadodara	50
6	Site 3: Sewasi pond, Vadodara	51
7	Site 4: Mahisagar river, Vadodara	51
8	Site 5: Timbi Village pond, Vadodara	52
9	Site 6: Wadhvana pond, Vadodara	52
10	Flow chart of entire material and methods	54
11	Pie chart of collected plant samples based on family	76
12	Pie chart of ecological grouping of collected plant samples	82
13	Gel image 1 of successful PCR amplification	111
14	Gel image 2 of successful PCR amplification	111
15	Gel image 3 of successful PCR amplification	112
16	Gel image 4 of successful PCR amplification	112
17	Molecular Phylogenetic analysis by Maximum Likelihood method	144
18	Total chlorophylls content of *L. polyrhhiza* L. at different concentration of Zn metal ion	154
19	Total Carbohydrates content of *L. polyrhhiza* L. at different concentration of Zn metal ion	154
20	Protein content of *L. polyrhhiza* L. at different concentration of Zn metal ion	155

Sr. No.	Figure Name	Page No.
21	Proline content of *L. polyrhhiza* L. at different concentration of Zn metal ion	155
22	Catalase activity of *L. polyrhhiza* L. at different concentration of Zn metal ion	156
23	Peroxidase activity of *L. polyrhhiza* L. at different concentration of Zn metal ion	156
24	Bioaccumulation of Zn ion of *L. polyrhhiza* L. at different concentration of Zn metal ion	157
25	Total Chlorophylls Content of *L. polyrhhiza* L. at different concentration of Ni metal ion	160
26	Total Carbohydrates Content of *L. polyrhhiza* L. at different concentration of Ni metal ion	160
27	Protein Content of *L. polyrhhiza* L. at different concentration of Ni metal ion	161
28	Proline Content of *L. polyrhhiza* L. at different concentration of Ni metal ion	161
29	Catalase activity of *L. polyrhhiza* L. at different concentration of Ni metal ion	162
30	Peroxidase activity *L. polyrhhiza* L. at different concentration of Ni metal ion	162
31	Bioaccumulation of Ni ion of *L. polyrhhiza* L. at different concentration of Ni metal ion	163
32	Total Chlorophylls Content of *L. polyrhhiza* L. at different concentration of Cd metal ion	166
33	Total Carbohydrates Content of *L. polyrhhiza* L. at different concentration of Cd metal ion	166
34	Protein Content of *L. polyrhhiza* L. at different concentration of Cd metal ion	167
35	Proline Content of *L. polyrhhiza L. at* different concentration of Cd metal ion	167
36	Catalase activity of *L. polyrhhiza* L. at different concentration of Cd metal ion	168
37	Peroxidase activity *L. polyrhhiza* L. at different concentration of Cd metal ion	168
38	Bioaccumulation of Cd ion of *L. polyrhhiza* L. at different concentration of Cd metal ion	169
39	Total chlorophylls content of *L. triscula* L. at different concentration of Zn metal ion	172
40	Total Carbohydrates content of *L. triscula* L. at different concentration of Zn metal ion	172
41	Protein content of *L. triscula* L. at different concentration of Zn metal ion	173
42	Proline content of *L. triscula* L. at different concentration of Zn metal ion	173

Sr. No.	Figure Name	Page No.
43	Catalase activity of *L. triscula* L. at different concentration of Zn metal ion	174
44	Peroxidase activity of *L. triscula* L. at different concentration of Zn metal ion	174
45	Bioaccumulation of Zn ion of *L. triscula* L. at different concentration of Zn metal ion	175
46	Total Chlorophylls Content of *L. triscula* L. at different concentration of Ni metal ion	178
47	Total Carbohydrates Content of *L. triscula* L. at different concentration of Ni metal ion	178
48	Protein Content of *L. triscula* L. at different concentration of Ni metal ion	179
49	Proline Content of *L. triscula* L. at different concentration of Ni metal ion	179
50	Catalase activity of *L. triscula* L. at different concentration of Ni metal ion	180
51	Peroxidase activity *L. polyrhhiza* L. at different concentration of Ni metal ion	180
52	Bioaccumulation of Ni ion of *L. polyrhhiza* L. at different concentration of Ni metal ion	181
53	Total Chlorophylls content of *L. polyrhhiza L. at* different concentration of Cd metal ion	184
54	Total Carbohydrates content of *L. polyrhhiza* L. at different concentration of Cd metal ion	184
55	Protein content of *L. polyrhhiza* L. at different concentration of Cd metal ion	185
56	Proline content of *L. polyrhhiza* L. at different concentration of Cd metal ion	185
57	Catalase activity of *L. polyrhhiza* L. at different concentration of Cd metal ion	186
58	Peroxidase activity of *L. polyrhhiza L. at* different concentration of Cd metal ion	186
59	Bioaccumulation of Cd ion of *L.triscula* L. at different concentration of Cd metal ion	187
60	EDX of control *L. polyrhhiza* L.	198
61	EDX of treated *L. polyrhhiza* L.	198
