

## List of Tables

Table 2.1: Plants selected for the study that are used to treat malaria and malaria like symptoms in Indian traditional system of medicine. ....	30
Table 2.2: Percentage yield of fractions obtained after extraction of plant material using different solvents.....	40
Table 2.3: Inhibition of <i>P. falciparum</i> 3D7 following 72 h exposure to plant extracts <i>in vitro</i> at the final concentration of 25 µg/ml. ....	41
Table 3.1: Summary of mPM I and mPM II purification. ....	64
Table 4.1: Qualitative phytochemical screening of <i>A. paniculata</i> EtOH extract and <i>C. wightii</i> AQ extract. ....	79
Table 4.2: Quantitative phytochemical screening of <i>A. paniculata</i> EtOH extract and <i>C. wightii</i> AQ extract. ....	79
Table 4.3 : Major fragments produced and components identified from <i>A. paniculata</i> EtOH extract by LC-MS-QTOF analysis. ....	82
Table 4.4: Major fragments produced and components identified from <i>C. wightii</i> AQ extract by LC-MS-QTOF analysis.....	83
Table 5.1: Molecular docking simulation between the 3D models of mPM I and mPM II and compounds identified from <i>A. paniculata</i> EtOH and <i>C. wightii</i> AQ extracts.....	94
