

LIST OF TABLES

Table No.	Title	Page No.
CHAPTER - III		
3.1	Break up of the Sample of Professionals according to Sex	68
3.2	Break up of the Sample of Non-Professionals according to Sex	69
3.3	Statistical Techniques Used in the Present Study	74
CHAPTER - IV		
SECTION - I		
4.1.1	Frequency and Percentagewise Distribution of the Professionals and the Non-Professionals according to their Religion.	77
4.1.2	Frequency and Percentagewise Distribution of First Learning the English Language by the Professionals and the Non-Professionals.	78
4.1.3	Frequency and Percentagewise Distribution of Medium of Instruction of Professionals and Non-Professionals at Different Stages.	79
4.1.4	Frequency and Percentagewise Distribution for the Attendance of English Improvement Courses by the Professionals and the Non-Professionals.	81
4.1.5	Mean, SDwise Distribution of Age, Length of Service and the Index of LEL for the Professionals and the Non-professionals.	82
4.1.6	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between the Index of LEL and Age, Place of Birth, Religion, Sex, Length of Occupation of the Professionals and the Non-Professionals.	83

Table No.	Title	Page No.
4.1.7	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between the Index of LEL and Teaching of English as Part of their Courses, Occupation and Mother Tongue of the Professionals and the Non-Professionals.	87
4.1.8	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between the Index of LEL and Satisfaction with the Level of English they acquire, English Improvement Courses, Qualification and Publishing of Articles by the Non-Professionals.	91
4.1.9	Coefficient of Correlation Wise Distribution of Different Indices for the Professionals.	94
4.1.10	Coefficient of Correlation Wise Distribution of Different Indices for the Non-Professionals.	96
SECTION - II		
4.2.1	Frequency and Percentagewise Distribution of the Use of English and other Indian Languages by the Professionals and the Non-Professionals with their Seniors During Working Hours.	102
4.2.2	Frequency and Percentagewise Distribution of the Use of English and other Indian Languages by the Professionals and the Non-Professionals with their Equals During Working Hours.	103
4.2.3	Frequency and Percentagewise Distribution of the Use of English and other Indian Languages by the Professionals and the Non-Professionals with their Subordinates During Working Hours.	104
4.2.4	Frequency and Percentagewise Distribution of the Use of English and other Indian Languages by the Professionals in Everyday Social Situations.	106

Table No.	Title	Page No.
4.2.5	Frequency and Percentagewise Distribution of the Use of English and other Indian Languages by the Non-Professionals in Everyday Social Situations.	108
4.2.6	Frequency and Percentagewise Distribution of Languages of the Correspondence for Official and Non-Official (Friends / Relatives) Purposes.	110
4.2.7	Frequency and Percentagewise Distribution of the Factors Responsible for Strengthening Proficiency in English of the Professionals.	111
4.2.8	Frequency and Percentagewise Distribution of the Factors Responsible for Strengthening Proficiency in English of the Non-Professionals.	112
4.2.9	Frequency and Percentagewise Distribution of the Opinion of the Professionals with Regard to the Relevance of the Courses in Relation to their Profession.	114
4.2.10	Frequency and Percentagewise Distribution of the Opinion of the Non-Professionals Regarding the Relevance of Various English Courses in their day-to-day Activities.	114
4.2.11	Frequency and Percentagewise Distribution Showing the Need of Knowing English in the performance of Different Tasks by the Professionals.	116
4.2.12	Frequency and Percentagewise Distribution Showing the Need of Knowing English in the Performance of Different Tasks by the Non-Professionals.	119
4.2.13	Frequency and Percentagewise Distribution of the Languages Known by the Professionals and the Non-Professionals, and their comparative Proficiency in them.	121

Table No.	Title	Page No.
4.2.14	Frequency and Percentagewise Distribution of the Knowledge of the Professionals and the Non-Professionals in Various Skills in English.	123
4.2.15	Frequency and Percentagewise Distribution Showing the Responses of the Professionals and the Non-Professionals in Reading Newspapers in English and other Languages.	125
4.2.16	Frequency and Percentagewise Distribution of the Responses of the Professionals and the Non-Professionals in Reading General Magazines in English and other Languages.	126
4.2.17	Mean, SDwise Distribution of Different Indices of the Professionals and the Non-Professionals.	127
4.2.18	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Age and Different Indices of the Professionals and the Non-Professionals.	128
4.2.19	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Sex and Different Indices of the Professionals and the Non-Professionals.	132
4.2.20	Frequency, Percentage and Chi-square Value Wise Distribution of the Association between English Courses Taught at Professional or Diploma Courses and Different Indices of the Professionals and the Non-Professionals.	136
4.2.21	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between English Improvement Courses and Different Indices of the Professionals and the Non-Professionals.	140

Table No.	Title	Page No.
4.2.22	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Contribution of Articles to Newspapers / Journals by the Professionals and the Non-Professionals and the Different Indices.	144
4.2.23	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Length of Service and Different Indices of the Professionals and the Non-Professionals.	148
4.2.24	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Mother Tongue and Different Indices of the Professionals and the Non-Professionals.	152
4.2.25	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Occupation and Different Indices of the Professionals and the Non-Professionals.	157
4.2.26	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Place of Birth and Different Indices of the Professionals and the Non-Professionals.	162
4.2.27	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Religion and Different Indices of the Professionals and the Non-Professionals.	166
4.2.28	Frequency, Percentage and Chi-square Value Wise Distribution of the Association Between Qualification and Different Indices of the Non-Professionals.	170
	SECTION - III	
4.3.1	Frequency, Percentage and Chi-square Value Along with the Level of Significance and Degree of Freedom with Respect to the Reactions of the Professionals about the Relevance of English Language.	187

Table No.	Title	Page No.
4.3.2	Frequency, Percentage and Chi-square Value Along with the Level of Significance and Degree of Freedom with Respect to the Reactions of the Non-Professionals about the Relevance of English Language.	196
SECTION - IV		
4.4.1	Frequency and Percentagewise Distribution of Data Related to the Satisfaction of the Professionals with the English Courses Taught at Different Levels.	207
4.4.2	Frequency and Percentagewise Distribution of Data Related to the Satisfaction with the English Courses Taught to the Non-Professionals at Different Levels.	208
4.4.3	Frequency and Percentagewise Distribution of Data Related to the Courses of the English Syllabus they felt that they Ought to have Undergone by Professionals and the Non-Professionals.	210
4.4.4	Frequency and Percentagewise Distribution of Data Related to their Opinion about how far the Textbooks Prescribed for Teaching English at Different Levels are Effectively the Professionals and the Non-Professionals.	212
4.4.5	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OCEO with Age, Place of Birth, Religion, Sex and Length of Occupation of the Professionals and the Non-Professionals.	215
4.4.6	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OCEO and Teaching of English as Part of their Courses, Occupation and Mother Tongue of the Professionals and the Non-Professionals.	219

Table No.	Title	Page No.
4.4.7	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OCEO and Satisfaction with the Level of English they Acquire, English Improvement Courses, Qualification and Publishing of Articles by the Non-Professionals.	222
4.4.8	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OTTEL and Age, Place of Birth, Religion, Sex and Length of Occupation of the Professionals and the Non-Professionals.	225
4.4.9	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OTTEL and Teaching of English as Part of their Courses, Occupation and Mother Tongue of the Professionals and the Non-Professionals.	229
4.4.10	Frequency, Percentage and Chi-square Value Wise Distribution of Data Related to the Association Between the Index of OTTEL and Satisfaction with the Level of English they Acquire, English Improvement Courses, Qualification and Publishing of Articles by the Non-Professionals.	232
