

LIST OF FIGURES

Figure 1: Regulation of gene expression by sRNAs	3
Figure 2: Translational activation by interference in the ribonucleolytic activity.	6
Figure 3: Protein binding sRNAs.	7
Figure 4: Classification of sRNAs.....	8
Figure 5: Hfq mediated regulation.....	8
Figure 6: 6S RNA antagonizes the activity of σ^{70} RNA polymerase.	11
Figure 7: sRNA affects transcription.....	11
Figure 8: Virulence factors of <i>P. aeruginosa</i>	22
Figure 9: Schematic illustration of the quorum sensing system in <i>P. aeruginosa</i>	25
Figure 10: Secondary structure of PhrD predicted by mfold.....	46
Figure 11: Schematic representation of promoter region of <i>rhlR</i> gene.	48
Figure 12: PhrD- <i>RhlR</i> interaction region.	48
Figure 13: PCR amplification, cloning and sub-cloning of PhrD	49
Figure 14: Pictorial representation of 3-step PCR to generate gene disruption cassette.	50
Figure 15: Construction of <i>phrD</i> gene disruption cassette	51
Figure 16: Confirmation of <i>phrD</i> disruption by PCR.	51
Figure 17: Sub-cloning of <i>phrD</i> into pUCP18	52
Figure 18: Construction of <i>rhlR::lacZ</i> fusions	53
Figure 19: Expression analysis of <i>phrD</i> in <i>P. aeruginosa</i> strain PAO1.....	54
Figure 20: Effect of PhrD on <i>rhlR</i> expression.....	55
Figure 21: PhrD positively regulates <i>rhlR</i> expression in <i>P. aeruginosa</i> PAO1.....	56
Figure 22: PhrD regulates <i>rhlR</i> in a heterologous system.....	58
Figure 23: PhrD positively influences rhamnolipid production.	59
Figure 24: Pyocyanin production under altered levels of PhrD.	60
Figure 25: Secondary structure of P18 predicted by mfold.....	63
Figure 26: RNA-RNA interaction of P18 sRNA with target mRNAs.	65
Figure 27: Genetic organization of <i>aprE</i> in PAO1 genome.	65
Figure 28: PCR amplification, cloning and sub-cloning of P18.	66
Figure 29: Construction of <i>p18</i> gene disruption cassette.	67
Figure 30: Confirmation of <i>p18</i> disruption by PCR using 3 sets of primers.....	68
Figure 31: <i>p18</i> expression in modified strains.	69

Figure 32: Relative qRT-PCRs assaying the effect of P18 on target mRNAs. 69

Figure 33: Phenotypic assays of alkaline protease and protease IV..... 70

Figure 34: RNA-RNA interaction between LasR and P18 predicted by IntaRNA. 71
