
LIST OF FIGURES

Figure 1. Major diseases of rice	4
Figure 2. Different parts of rice infected by blast.....	7
Figure 3. Infection cycle of <i>Magnaporthe oryzae</i>	9
Figure 4. Surface dependent signalling and <i>Magnaporthe</i> development	10
Figure 5. SAPK pathways in different fungi	15
Figure 6. TCS and its regulation of SAPK (HOG) pathway in model organism <i>S. cerevisiae</i>	18
Figure 7. Sequence Analysis of MoHPT1 in <i>M. oryzae</i>	42
Figure 8. Two different isoforms of MoHPT1 in <i>M. oryzae</i> B157 strain.....	43
Figure 9. MoHPT1 Phosphorylation prediction by NetPhos2 and NetphosK phosphorylation prediction tool.....	44
Figure 10. Plasmid Constructs developed for this study	46
Figure 11. Bacterial expression and purification of MoHPT1 antigen; and western of MoHPT1 with rabbit generated antibody	49
Figure 12. Complementation of <i>hpt</i> mutation in <i>S. cerevisiae</i> with MoHPT1	50
Figure 13. Functional expression and immunolocalisation of MoHPT1 in <i>M. oryzae</i> ..	52
Figure 13. Functional expression and immunolocalisation of MoHPT1 in <i>M. oryzae</i> ..	52
Figure 14. Disruption of MoHPT1 in <i>M. oryzae</i> B157.....	53
Figure 15. Knock-down of MoHPT1 in <i>M. oryzae</i>	55
Figure 16. TAIL- PCR of RA6 to identify the site of integration of the silencing construct	57
Figure 17. Phenotype of MoHPT1 knock-down transformants	58
Figure 18. Infection assay of the Knock-down transformants	59
Figure 19. Light induced expression of PAS domain containing Histidine kinases in <i>M. oryzae</i>	61
Figure 20. Plate assays of MoHPT1 knock-down transformants under different stress conditions.....	62
Figure 21. Quantitative expression analysis of MoHPT1 knock-down transformant RA6 under 0.8M NaCl, 1.2M Sorbitol and 5mM H ₂ O ₂ stress conditions	64
Figure 22. HOG1 expression in the knock-down transformants	66
Figure 23. MoHPT1 regulates cell wall stress signalling	68
Figure 24. Laccase activity of MoHPT1 knock-down transformants	69
Figure 25. NCR/ CCR plate assay	71
Figure 26. Co-immunoprecipitation of MoHPT1	72
Figure 27. Graphical representation of the differentially expressed subset of genes classified according to their functional domain	81
Figure 28. Validation of expression levels of up-regulated genes in MoHPT1 knock-down transformants.....	84

<i>Figure 29. Validation of expression levels of down-regulated genes in MoHPT1 knock-down transformants.....</i>	<i>86</i>
<i>Figure 30. Graphical representation of the differentially expressed subset of genes in oxidative stress treated MoHPT1 RNAi transformant classified according to their functional domain.</i>	<i>90</i>
<i>Figure 31. Validation of selected genes differentially expressed in oxidative stress treated MoHPT1 knock-down transformant</i>	<i>91</i>
<i>Figure 32. Schematic diagram of the effect of silencing of MoHPT1 on the downstream pathway</i>	<i>93</i>
