

## **ACKNOWLEDGEMENTS**

I wish to record with great pleasure my deep sense of gratitude to Dr. P.V. Patel, Reader, Department of Zoology, M.S. University of Baroda, Baroda, for suggesting this subject, his constant valuable guidance and constant encouragement during the course of completion of this work. His suggestions, critical reviews and timely interventions have been a great help in maintaining the right direction of the work.

I shall fail in my duty, if I do not express my indebtedness to Dr. Bonny Pilo, Professor and Head, Department of Zoology, M.S. University of Baroda, Baroda, who provided me all the encouragement, help and facilities. His insistence on quality work has been a constant source of refinement.

My acknowledgement is also due to prof. S.D. Sabnis, Pro. Vice-Chancellor, M.S. University, who initially provided the opportunity to work on the research project and had been a constant source of inspiration during past three years. Grateful thanks are also due to prof. P.M. Ambadkar whom one could always approach and dip into his vast experience.

I gratefully acknowledge M.S. University of Baroda for little financial support for few months in form of Research assistantship in a research project. Thanks are also to Dr. M.S. Jani, Reader, Dept. of Biochemistry, M.S. Uni. of Baroda, Baroda for his help in timely supply of laboratory animals.

Thanks are due to all my teachers, friends and non-teaching staff in the department who were there to bale me out of the difficult situations whenever their help was needed.

Words are inadequate to express my deep appreciation of the inconveniences suffered and emotional & material support provided by my lovable children - Kapil and Maitreyee, my fond husband - Jugal Kishore, and my affectionate mother, who saw me through this research effort.

Finally my thanks are also due to Army authorities of EME school, Baroda, in particular Brig S.K. Gupta, Station Commander, who have been very kind in permitting my stay in serene environs of the "School campus", during tenure of my research work.

Finally, I dedicate this work to memory of my late father.

"Do what interest you in life and do it to hilt, Work is life, life is a celebration and God's gift".
