

## C O N T E N T S

CHAPTER		PAGE
	INTRODUCTION	1
1	Material and Methods	19
2	Histochemical observations on the activity of Glucose-6-phosphate dehydrogenase in the definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions	25
3	Histochemical observations of the aldolase activity in the definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions.	54
4	Histochemical observations on lactate dehydrogenase and $\alpha$ -glycerophosphate dehydrogenase in the definitive feather of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions.	84
5	Histochemical demonstration of lipids, lipase and $\beta$ -hydroxybutyrate dehydrogenase in the definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions.	124

CHAPTER		PAGE
6	Histochemical observations on the activity of Succinate and Malate dehydrogenases in the definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions	182
7	Histochemical observations on the alkaline phosphatase activity in the definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions.	223
8	Histochemical observations on the acid phosphatase activity in the developing definitive feathers of the blue rock pigeon, <u>Columba livia</u> , developing under three different conditions.	251
9	General considerations	277
