

ACKNOWLEDGEMENTS

With great pleasure I express my deep sense of gratitude and indebtedness to Dr. R. V. Shah, Professor and Head, Department of Zoology, for suggestion of the problem, for his constant guidance and encouragement throughout the course of this study, without which the thesis would not have been in the present form.

I wish to put on record my sincere thanks to Dr. A. V. Ramchandran, Reader in Zoology, for his unfailing help and sparing his valuable time, providing valuable suggestions for experimental work of the study as well as in preparation of the thesis.

My sincere thanks are due to Dr. Miss M. V. Asnani for her kind and constant help which has greatly contributed towards this study. I also express my thanks to Dr. Miss N. F. Gangaramani for her suggestions and help in preparation of the thesis.

I am thankful to University Grants Commission (India) for awarding me Junior Research Fellowship during the tenure of this study.

Finally, I take opportunity to thank all my colleagues in the department for their co-operation during various stages of this work.
