

ACKNOWLEDGEMENT

Though these words are inadequate to express my indebtedness to Dr. R.V. Shah, Professor and Head, Department of Zoology, M.S. University of Baroda, Baroda, it gives me great pleasure to record my deep sense of gratitude to him for kindly suggesting the problem, for extending valuable guidance all along the course of this study and above all for devoting unflinchingly a good deal of his time for the progress of this study.

I am taking this opportunity to express my sincere thanks to Dr. Bonny Pilo of Department of Zoology, for his various helps and suggestions.

I gratefully acknowledge hereby the financial assistance given to me by the M.S. University of Baroda, during the tenure of which a part of this study was completed. I am also grateful to all my colleagues and friends in the Department of Zoology, but for whose kind and timely helps, it would not have been possible for me to complete this study in a short period.
