

## **Acknowledgement**

*The Journey of doctorate program has always been a long and gruelling story of hurdles, challenges and conquests that have finally led to the fulfilment of a valued, lifelong academic vision. This journey from starting to end of the PhD program was virtually lost its path and direction in a bout of illness. Number of people have contributed significantly to this process and I owe my deep gratitude to each one of them. I would like humbly and happily to acknowledge each and every one who made this possible.*

*First and foremost, I would like to praise and thank Lord Ganesh, the almighty, who has granted countless blessing, knowledge, and opportunity to the writer, so that I have been finally able to accomplish the thesis.*

*This long journey would not have been finished without continuous and valuable support of **Prof. Pragna Parikh**, under whose guidance. I got a precious opportunity to be registered in the past for my doctorate. I would like to grab each and every opportunity to convey my salutes to Pragna mam because of her inspiration and guidance not only throughout this course, but also before the PhD registration. Before registration, she motivated me a lot and due to which I could prepare myself for the study. She always gave me space to develop my thoughts and ideas on this research. She is the mentor, full of Ideologies on the one hand and a motherly figure on another side. I never felt as I was her student, instead it was like I was her real son because of her extreme caring nature. She has immensely supported me during my Ph.D. tenure. At each and every step, her suggestions and guidance have shown me the correct direction to achieve work related and professional goals. She always had faith in my skills to go the extra mile to save me from an unfortunate predicament and take up my research in its final stages under her tutelage. I also take the opportunity to express my gratitude to **Mr. Hitesh Parikh**, **Mr. Yashesh Parikh** and **Mrs. Vaidehi Parikh** for boosting me in completing my thesis work.*

*Without the support of the department it is hard to imagine to drive the work. I would like to express my sincere thanks to **Prof. Dolly Kumar**, Head of the department and **Prof. P.C. Mankodi**, Formal head of the department of*

Sometimes words become very limited to express the gratitude towards some people. I can't imagine my Ph.D. accomplishment without the support of my classmate, best friend and lab senior, **Dr. Parth Pandya**. I would like to convey my special thanks to him for endorsing me for PhD study, for guiding me at every stage of this journey and providing scientific support whenever needed. After Pragna mam, he is the second person, I will be in debt of the gratitude. I owe a huge bundle of appreciation to **Dr. Bhumi Thakkar**, who had immensely helped me when I was surrounded by a ton of work. She always stood by me and made the lab environment extremely pleasant. My most profound admiration towards **Mrs. Ankita Salunke** for helping me at every step in experimentation and other works. I can't forget the supports and the efforts made by Bhumi and Ankita, especially in administrative tasks. I extend my sincere thanks to **Sr. Linta Paulson**, who also supported me whenever needed.
