

## C O N T E N T S

CHAPTER I	THE PROBLEM	1-40
	Introduction	1-4
	Aggression as a behaviour	4-8
	Aggression viewed by different disciplines	8-30
	Need for the present study	30-36
	Objectives	36-37
	Hypothesis	37-39
	Delimitations	39
	Scope	40
CHAPTER II	REVIEW OF RELATED LITERATURE	41-79
	Introduction	41-42
	Literature on theories	42-44
	Literature on Biological theories	44-50
	Literature on Drive theories	50-54
	Literature on Learning theories	54-60
	Literature on tools of measurement	60-65
	Surveys and analytical researches	65-69
	Experimental studies	69-79
CHAPTER III	METHOD AND PROCEDURE	80-106
	Introduction	80-82
	Sample	82-87
	Development of the tool	87-99
	About the other tools used	99-103
	Procedure of data collection	103-106
	Statistical analysis	106
CHAPTER IV	DATA ANALYSIS AND RESULTS	107-126
	Introduction	107
	Relationship of aggression with selected variables separately	107-118
	Effect of Self Concept and Achievement Motivation and their interaction on aggression	118-121
	Effect of Academic Performance and Non-academic Performance and their interaction on aggression	121-124
	Effect of Sex and City and their interaction on aggression	124-126

CHAPTER V	CASE STUDIES OF HIGHLY AND LOWLY AGGRESSIVE ADOLESCENTS	127-164
	Introduction	127-128
	Sample	128-132
	Procedure for data collection	132-134
	Analysis	135-164
CHAPTER VI	REVIEW DISCUSSION AND SUGGESTIONS	165-186
	Review	165-172
	Discussion of major findings <del>suggestions</del>	172-182
	Suggestions	182-186
BIBLIOGRAPHY		187-234
APPENDIX		235

#### LIST OF TABLES

3.1	Distribution of subjects for tool construction	83
3.2	School and classwise distribution of the subjects for the final administration	85
3.3	Sexwise and disciplinewise distribution of the subjects	86
3.4	't' values for distribution between low and high aggression groups and the 'r' values for item-total correlation	96-97
4.1	Relationship of aggression with selected variables in the total sample	108
4.2	Relationship of aggression with selected variables in different sub samples	109
4.3	'r's and ' 's and departure from linearity in relationship between aggression with selected variables in total sample.	113
4.4	'r's and ' 's and departure from linearity in relationship between aggression and Self Concept in sub samples	115
4.5	'r's and ' 's and departure from linearity in relationship between aggression and Achievement Motivation in sub samples	116
4.5	'r's and ' 's and departure from linearity in relationship between aggression and Academic Performance in sub samples	116
4.7	'r's and ' 's and departures from linearity in relationship between aggression and Non-academic Performance in sub samples	117

4.8	Summary of ANOVA for aggression	120
4.9	Summary of ANOVA for aggression	122
4.10	Summary of ANOVA for aggression	124
5.1	Mean and Standard Deviation of aggression scores in Allahabad sample	129
5.2	Mean and Standard Deviation of aggression scores in Baroda sample	130
5.3	Causes of aggression as reported by HAS's and LAS's and their values	137
5.4	Other Causes	152
5.5	Frequencies of different respondents on different traits	153
5.6	Calculation for value	157
5.7	values related to comparative opinions of parents, teacher, peer and subject himself regarding HAS's and LAS's
