

ACKNOWLEDGEMENT

I am in duty bound to record my deep sense of gratitude to Dr. J.C.George for the suggestion of the problem, and also for the constant guidance and encouragement, but for which this work would not have been successfully completed.

I am thankful to Dr.Suresh Sethna, Professor of Chemistry for allowing me the use of the Beckman's Spectrophotometer in his laboratory and to his colleague Mr. A.N.Godbole for his never failing assistance.

My thanks are also due to Mr. Y.K.Sane for his valuable help in taking the photographs presented.
