

CONTENTS

Introduction	1
1. Histochemical observations on the rat testis	6
2. Histochemical observations on the epididymis of the rat	34
3. <u>In vivo</u> effect of testosterone propionate and gonadotropin on the lipid content and the lipase and succinic dehydrogenase activities in the rat testis and epididymis	48
4. Post-natal levels of lipids, lipase and succinic dehydrogenase in rat testis	64
5. Histochemical localization of lipids and lipase in the testes of certain vertebrates	75
6. Certain observations on a modified region of cauda epididymis of the rabbit	94
7. A histological and histochemical study on the rete testis of some seasonal mammals	109
8. Incorporation of acetate-1-C ¹⁴ into lipids of the rat testis	119
9. Summary	126
10. Bibliography	134
