

CONTENTS

Introduction	1
Chapter 1. Habits, habitats and fishery of <u>Hilsa ilisha</u> (Ham.) and <u>Hilsa toli</u> (Cuv. & Val.)	7
2. Histological changes in the red and white muscles of <u>Hilsa ilisha</u> and <u>Hilsa toli</u> during different stages of life cycle	14
3. Changes in fat and water contents in the red and white muscles of <u>Hilsa ilisha</u> and <u>Hilsa toli</u> during different stages of life cycle	40
4. On the iron content in the red and white muscles of a migratory and non-migratory fish during different stages of maturity	72
5. Changes in sodium and potassium contents of the red and white muscles of <u>Hilsa ilisha</u> and <u>Hilsa</u> <u>tolli</u> during different stages of life cycle	82
6. Changes in calcium and phosphorus contents of the red and white muscles of <u>Hilsa ilisha</u> and <u>Hilsa toli</u> during different stages of life cycle	97
7. Localization of cholinesterases in the red and white muscles of three representative types of fishes	115
8. Histophysiological observations on the choline- sterases in the lateral muscle of a migratory and non-migratory fish	137
Summary	163
Bibliography	171
