

## ACKNOWLEDGEMENT

It gives me a great pleasure to record my deep sense of gratitude to Dr. J.C. George, Ex. Professor and Head of the Department of Zoology, M.S. University of Baroda, Baroda, now Professor of Zoology at the University of Guelph, Guelph, Canada, for the suggestion of the problem and for the constant guidance and encouragement, without which this work would not have been completed. I am indebted to the authorities of Shri Sayaji General Hospital, Baroda for providing me with the human diaphragm for the present work. I am very much thankful to Dr. R.V. Shah, Officiating Head, Department of Zoology, M.S. University of Baroda, Baroda for guidance and encouragement when the thesis was under preparation. Lastly it is a pleasure to thank all my colleagues in the department who have helped me in the various ways in the preparation of the thesis.
