

ACKNOWLEDGEMENT

My deep gratitude goes first to my research supervisor, Professor Ashutosh Bedekar, who proficiently guided me throughout my research work and shared the excitement and setbacks of this journey. His profound knowledge and unwavering enthusiasm for chemistry kept me constantly engaged. His guidance inspired me to work hard and put more efforts in my research and study. His continuous involvement and fruitful discussions in the subject proved to be a major contribution to this work. His constant encouragement, especially during the challenging times, was a great motivation. I sincerely thank him for making me realize the power of critical reasoning.

I am thankful to Professor Anjali Patel and Professor Neelima Kulkarni, former Heads, Department of Chemistry, for allowing me to use the various facilities and instruments in the department during my research work.

The financial support obtained in the form of Maulana Azad National fellowship from the University Grants Commission (UGC-MANF), New Delhi is earnestly acknowledged.

I am grateful to Dr. Mohan Bhadbhade, UNSW, Sydney, and Dr. Hemant M. Mande for help in refinement of single crystal X-ray analysis during my research. I am also thankful to Prof. V.K. Singh (formerly associated with IIT-Bombay) for HRMS analysis and Prof. Bhavna Trivedi for help in electrochemical measurements.

I would like to thank the office staff of chemistry department, especially Mr. K. J. Rane and Mrs. Revathi Ganesh for help in all administrative activities related directly or indirectly to my work. I would like to thank all the non-teaching staff of the department for extending basic help for my research.

I would like to express my thanks to my senior Dr. Harish Talele who laid the foundation of helicene chemistry in our lab and Dr. Gourav Upadhyay who explored this subject in the best way possible. I would also like to extend thanks to seniors Dr. Akeel Saiyed and Dr. Anju Chaudhary. I would like to thank Dr. Nilesh Jain and Dr. Krupa Patel who helped me a lot during my early days of research. My heartfelt gratitude also to Dr. Shyam Sundar, Dr. Jayramman, Dr. Aditya Khanvilkar, Dr. Riddhi Gupta, Mr. Hiten Raval, Mr. Ketan Maru, Ms. Esha Bhalodi, Mr. Atul Pandavadara, Ms. Astha Dwivedi, Mr. Vijay Joshi and Ms. Binal Parmar for upholding a joyful and positive atmosphere in the laboratory. I would also like to remember my friend and lab colleague, Late Mr. Parvinder Singh for all the wonderful discussions we had on helicene chemistry.

I would like to thank Dr. Gourav Upadhyay and Dr. Rina Soni for NMR analysis. Dr. Krupa Patel and Mrs. Priyanka Salunke for their help with UV-Vis and Fluorescence Spectroscopy, Dr. Aditya, Mr. Hiten and Ms. Mayuri for X-ray analysis, Dr. Riddhi Gupta and Ms. Esha Bhalodi for IR analysis. I would also like to thank Mr. Chirag Savani for helping me with computational analysis. I would like to thank all the instrument operators from the department for their timely help to complete this work.

My appreciation also extends to Ms. Namrata Goel and Ms. Twinkal Chaudhari with whom I have collaborated on their dissertation work.

I am extremely indebted to my family for their continuous support and care. No words can suffice the unparalleled love and sacrifice made by my parents, Mrs. Aleyamma Rajan and Mr. Rajan Thomas and my parents-in-law Mrs. Jessy Varghese and Mr. Alexis Varghese for their emotional support. My special thanks to my brother Blessen, sister-in-law Deepa, their little bundle of joy Kiaan and my brother-in-law Joel for their heart-warming kindness and love, despite the long distance.

Last but not the least, I humbly thank my husband, Mr. Lijo Varghese for supporting my decision to continue Ph.D. and bearing through all the consequences. Like a pillar of strength, he has stood by me through all my travails and helped me get through all the agonizing periods. All love to my beloved daughter Serah, who was born before completion of this Ph.D. and who constantly reminds me to keep learning every day.

Above all, I owe it all to Almighty God for bestowing me with wisdom, health, and spiritual peace to undertake this research task and enabling me to its completion.

Blessy Rajan
