

LIST OF TABLES

Sr.No	Topic	Page. No
1.	Table:1 Distance Educational Institutions	3
2.	Table: 2 The Tools Used for Data Collection were:	101
3.	Table: 3 Description of Research Tools	102
4.	Table: 4 Session Details of Module 1 Communication (13 Hours)- Time: 1 hour Per Session	105
5.	Table: 5 Session Details of Module 2 Graphic Aids (16 hours) Time: 2 Hours per Session	107
6.	Table: 6 Level of Education of Parents	109
7.	Table : 7 Categorization of variable Income of the Family	109
8.	Table: 8 Categorization of variable Stream of Study	109
9.	Table: 9 Categorization of variable Medium of Instruction at School	109
10.	Table: 10 Categorization of variable Usage of Computer and Internet	110
11.	Table: 11 Minimum and Maximum Score of variable Usage of Computer	111
12.	Table: 12 Categorization of Variable Type of Computer User	111
13.	Table: 13 Categorization of variable Exposure to ICT	111
14.	Table: 14 Minimum and Maximum Score of variable Exposure to ICT	112
15.	Table: 15 Categorization of variable Exposure to ICT	112
16.	Table: 16 Categorization of variable Possession of Gadgets	112
17.	Table: 17 Categorization of variable Budget for the Internet Usage	113
18.	Table: 18 Minimum and Maximum Score of variable Budget for the Internet Usage	113
19.	Table: 19 Categorization of variable Budget for the Internet Usage	114
20.	Table: 20 Intensity Indices	114
21.	Table: 21 Different Statistical Measures Used for Analysis of Data	115
22.	Table: 22 Percentage distribution of the Demographic Profile of the students	117

23.	Table: 23 Percentage distribution of the students according to their Usage of Computer and Internet, Exposure of ICT and Budget spent on Internet	123
24.	Table: 24 Wilcoxon Sign Rank Test between Pre-test and Post-test of Knowledge Test	126
25.	Table: 25 Mann-Whitney U-Test between Pre-Test / Post-Test and Family type	131
26.	Table: 26 Significant difference of gain in knowledge learning through online course in relation Family Income	132
27.	Table: 27 Mean Score showing gain in knowledge learning through online course in relation Family Income	132
28.	Table: 28 Significant difference of gain in knowledge learning through online course in relation to Parents' education (Mother)	136
29.	Table: 29 Significant difference of gain in knowledge learning through online course in relation to Parents' education (Father)	136
30.	Table: 30 Mann-Whitney U-Test between Pre-Test / Post-Test and Stream of Study	139
31.	Table: 31 Mann-Whitney U-Test between Pre-Test / Post-Test and Medium of Instruction in School	140
32.	Table: 32 Mean Score of gain in knowledge learning through online course in relation to Medium of Instruction	140
33.	Table: 33 Significant difference of gain in knowledge learning through online course in relation to Usage of Computer and Internet	143
34.	Table: 34 Mean Score of gain in knowledge learning through online course in relation to Usage of Computer and Internet	143
35.	Table: 35 Significant difference of gain in knowledge learning through online course in relation to Exposure to ICT	147
36.	Table: 36 Mean Score of gain in knowledge learning through online course in relation to Exposure to ICT	147

37.	Table: 37 Significant difference of gain in knowledge learning through online course in relation to Budget spent on usage of Internet	150
38.	Table: 38 Percentage Distribution of the Reactions of the Students of Experimental Group towards the Unique Features of the Designed Online Course helped the Students in Learning Topic “Communication” and “Graphic Aids”	151
39.	Table: 39 Intensity Indices Showing Different Aspects(Physical Aspects) of Online Course helped students Learning Topic “Communication” and “Graphic Aids”	155
40.	Table: 40 Intensity Indices Showing Different Aspects(Content Aspects) of Online Course helped students Learning Topic “Communication” and “Graphic Aids”	156
41.	Table: 41 Intensity Indices Showing Different Aspects (Evaluation Aspects) of Online Course helped students Learning Topic “Communication” and “Graphic Aids”	157
42.	Table: 42 Percentage Distribution of Reactions of the Students from Experimental Group towards Problems Faced while Learning Through an Online Course	159
43.	Table: 43 Percentage distribution of Suggestions of the students of experimental group to make designed online course more effective	161
