

LIST OF TABLES

| <u>TABLE NO.</u> |  | <u>PAGE</u> |
|------------------|--|-------------|
| A                | : Number of Theses and Dissertations approved for the Degree of M.Ed. and Ph.D. in Indian Universities with respect to Backwardness, Giftedness and Delinquency. | 33          |
| 1                | : Standardwise Number of Students tested on an Intelligence Test in Various Schools.   | 78          |
| 2                | : Standardwise Distribution of Students listed on the basis of I.Qs.   | 79          |
| 3                | : Standardwise Distribution of Students in two groups, listed on the basis of two criteria: I.Q. and School Achievements.  | 81          |
| 4                | : Standardwise Distribution of Dull Backward and Normal Students selected on the basis of three criteria.  | 82          |
| 5                | : Classification of CTRS items as related to the eleven character traits.  | 95          |
| 6                | : Chi-square for the Differences in the Trait Scores of the Dull Backward and the Normal groups based upon the Median Test.                                      | 97          |
| 7                | : Behaviour-itemwise chi-square for the differences in the distribution of Dull Backward and Normal Students based upon Contingency Tables.                      | 100         |
| 8                | : Chi-square for the Differences in the Trait Scores on Self Rating of the Dull Backward and the Normal Groups.(Median Test).                                    | 105         |
| 9                | : Comparison of results obtained by teachers' ratings and self rating for eleven traits.   | 107         |
| 10               | : Frequency Distribution of the trait scores on 'Bullying' obtained by teachers' rating and self rating.   | 108         |

## List of Tables..(continued)

| <u>TABLE NO.</u>  | <u>PAGE</u> |
|---|-------------|
| 11 : Frequency Distribution of the Trait Scores on 'Interested in School Activities' obtained by teachers' rating and Self Rating.          | 109         |
| 12 : Chi-squares between the Frequencies of Dull Backward and Normal Boys showing a trait and not showing it according to fathers.          | 113         |
| 13 : Frequencies of Dull Backward and Normal Boys indicating a trait and not indicating it according to Fathers.                            | 114         |
| 14 : Chi-squares Between the Frequencies of Dull Backward and Normal boys showing a trait and not showing it according to Mothers.          | 117         |
| 15 : Frequencies of Dull Backward and Normal Boys indicating a Trait and not indicating it according to Mothers.                            | 119         |
| 16 : Results of the Ratings on all the eleven traits by the Teachers, the fathers, the mothers and the mothers and the students themselves. | 120         |
| 17 : Members in the families of Dull Backward and Normal Students.  | 131         |
| 18 : Change in the Number of Members in the Families of Dull Backward and Normal Students.  | 134         |
| 19 : Monthly Income per Capita in the Families of Students in the two groups.   | 136         |
| 20 : Fathers and Mothers w.r.t. their level of Education.   | 138         |
| 21 : Students w.r.t. their fathers' occupation.   | 140         |
| 22 : Fathers of the two groups w.r.t. social and Public Activities.   | 143         |

## List of Tables..(continued)

| <u>TABLE NO.</u> |   | <u>PAGE</u> |
|------------------|---|-------------|
| 23               | : Mothers of the two Groups w.r.t. social and Public Activities.                | 144         |
| 24               | : Nature of Illness in the Families of Dull Backward and Normal Students.       | 147         |
| 25               | : Interest of Students in Various activities.                                   | 160         |
| 26               | : Attendance of the Dull Backward and the Normal Students for the year 1964-65. | 163         |
| 27               | : Vocational Choice of the Students under Study.                                | 166         |
| 28               | : Difficulties in teaching the failing students mentioned by teachers.          | 170         |
| 29               | : Opinions given by Parents regarding the Causes of the Failures of their sons. | 173         |
