

## ACKNOWLEDGEMENT

---

This research would not have been possible without the direct or indirect support of a lot of people and here I would like to express my gratitude to all. I beg forgiveness if some names eludes memory, after all it is expected that as you progress in academics you increasingly become absent minded!

First of all I want to convey my sincere gratitude to my research supervisor, Professor P. Ajithprasad. Sir has guided me throughout these four years by giving me freedom to develop my research. His profound knowledge of the Harappan civilization has helped me to understand it better. Sir has looked out for me, supported me and encouraged me in every way possible and I do not have enough words to thank him properly. At the most what I can say is, Sir, thank you very much for everything.

Many thanks to Prof. K. Krishnan, the current Head of the Department of Archaeology and Ancient History. I will never forget the trust shown by him when he gave me the opportunity to visit Pakistan in 2013. He has also very kindly allowed me to use the department facilities whenever required.

I would like to thank Prof. K.K. Bhan, former Head of the Department of Archaeology and Ancient History. He has encouraged me since I joined this department in my first year of Bachelor of Arts. I am very thankful to him for allowing me to attend various excavations and especially to give me my very own trench at the site of Shikarpur for the first time. His trust and interest in my research has always helped me to make my work better.

My sincere thanks are due to Prof. Sonawane, former Head and retired professor of the Department of Archaeology and Ancient History. He has always shown keen interest in my work and has always extended his help whenever asked for.

I would like to thank the other teachers of the department, Dr. Ambika Patel, Dr. Sushmita Sen, Mr. S. Prathapchandran and Dr. P. A. Panjwani for their support and encouragement throughout my study starting right from the bachelor levels.

Thanks are also due to the technical and non-teaching staff of the department, Piyushbhai, Sukhrambhai, Pawar Dada, Rajeshbhai, Kantibhai, Lalabhai and

Somakaka for all their help in field works as well as whenever asked for even in the department. Special thanks to Pathakbhai, our librarian, who always assisted pleasantly while searching for books and references in department library as well as over the internet.

I am very thankful to Dr. Marco Madella. He included me in his project and gave me an opportunity to excavate with his team for three field seasons. The North Gujarat Archaeological Project has taught me new methods of excavation, has exposed me to new techniques and ideas and most of all have made me friends with very wonderful and foremost people in their respective fields.

I am extremely thankful to Dr. P. Sinha of the Department of Ancient History, Culture and Archaeology, University of Allahabad for spending one month of his precious time to teach me flint knapping and microwear analysis. Words do not come to my mind to thank Sinhasir who very patiently taught me experimental archaeology almost from dawn to dusk taking time off from his busy schedule and answered all my beginners' stupid questions without hesitating. I will never forget the hot samosas and bun-omelets Sir would get almost daily for everybody if he so much as got a hint that I was hungry and the endless cups of teas and chats about experiments and microwear studies.

I am enormously thankful to the Jawaharlal Nehru Memorial Fund for granting me the Jawaharlal Nehru Scholarships for Doctoral Studies for the years 2012 and 2013. Without this financial support my research would not have progressed so smoothly.

Life is nothing without the support of friends and colleagues. I would like to thank all my friends from the department and university, Dr. Rajesh S.V., Dr. Urmi Ghosh-Biswas, Vrushab Mahesh, Oishi Roy, Ritvik Balvally, Rajlaxmi, Dr. Saleen Shaikh, Sujata Samurailatpam, Dr. Vinod V., Dr Bhanu Prakash Sharma, Palak Vyas, Nidhi Shendurnikar Tere and Suruchika Chawla for their encouragement and support throughout my research. Special thanks are due to Dr. Rajesh S.V. and Ritvik Balvally for helping me out untiringly with formatting and other computer related problems. Thanks are due to my friends and colleagues from Spain with whom I attended many a field works and learnt new methods- J.J.Garcia-Granero, Dr Carla Lancelotti Dr. Andea Balbo, Dr B. Rondelli, V.Yannitto, Francesc Conesa, Pepelu

Mateos and Javier Ruiz Perez. And friends from USA- Dr Brad Chase, Dr Randall Law, Dr. Teresa Raczek, Dr Katie Lindstrom, Dr Suzanne Harris, Dr August Cost and Anna Elizabeth who have always supported me, shown keen interest in my work and provided me with reference articles/other literature whenever I asked them. I am thankful to have made an acquaintance with Prof. Kenoyer, discussions with whom were very valuable for my work.

Special thanks are due to my friends Vasvi Oza and Renuka Ekbote-Shende. This friendship which started from the first year of our bachelors has been a pillar of support in my life. They have encouraged and helped me during all my depressed and frustrated times. I do not know how to express my gratitude towards both of them but am enormously thankful to have them in my life. Thanks are also due to their parents for being very gracious hosts at moment's notice. I am also thankful to my fine arty friends, Kavita, Anu BS, Sajeev and Vibin. I will always remember the fun time spent with these friends. Thanks are due to Mrs Kim Kyoungae for many a wonderful dinners and relaxed times.

How and in which way can I ever thank my landlord, Mr. Kumarpal Shah? I have never come across a man more humble and altruistic. He has bigheartedly and selflessly given me his house in Baroda which has made my stay here exceptionally comfortable and has allowed me to pursue a healthy life style.

I would be nowhere without my family. The support and love given to me by my parents have got me through every situation in life. I would not have accomplished anything in my life (especially the completion of this thesis!) without the support and encouragement of my parents, Dr. Sanghamitra Desai Gadekar and Dr. Surendra Gadekar. They are pillars of my life. I am what I am due to my parents (of course all the faults are entirely my own!). I am very thankful to my grandfather, Mr. Narayan Desai, to have trust in my ability to achieve. I thank God to have brought me to this family and such wonderful and unique people. They are my friends, philosophers and guides.

Many thanks are due to various other people who somehow or other helped me in this tedious journey of mine. Thank you very much everybody.

Charusmita Gadekar
