

## Acknowledgment

---

With a deep sense of gratitude I would like to acknowledge the support of all those people who have directly or indirectly been an integral part of my work.

It is a matter of privilege and pleasure to express my appreciation towards my guide Dr. Anjali G. Jivani for her motivation, technical guidance and constant support throughout this work. Her vision and direction helped me select this subject of research and her critical and expert comments and innovative suggestions encouraged me to complete this work successfully. During each phase of this research work, she constantly helped me to resolve the challenges I faced as a real GURU does. This dream could not have been achieved without her mentorship.

My research work place – Department of Computer Science and Engineering, The Maharaja Sayajirao University of Baroda has been a hub of research as well as a place of great joy and encouragement for me. I would like to thank all the staff members of this University for their cooperation and assistance during this work. I am grateful to Dr. Apurva Shah, Head of CSE Department for his constant motivation, support and co-operation. I am also grateful to Viral Sir, Mamta Madam, Vishwas Sir, Hetal Madam, Meghna Madam and Kshitij Sir for their continuous support and co-operation.

My family has been the backbone for all that I have done till now in my life, especially my husband, my daughter and my parents – Maa-Baba. Absolutely nothing would have been possible without the unvarying encouragement and consistent inspiration from my husband Shibiraj and my daughter Devisha. I would also like to acknowledge the technical tips given by my brother Arindam Gupta during my research work period.

I am highly indebted to Vij Sir for suggesting the broad area of Text Mining to me for doing research. His sincere support and co-operation during this period is highly appreciated.

In addition, I express my gratitude to my two brother-in-laws, sister-in-law and my all co-sisters who have been a constant source of inspiration for me.

***Rupam Gupta***
