

## ACKNOWLEDGEMENT

I wish to express my sincere and deep sense of gratitude to my beloved and respected guide Dr.O.D. Gulati, Former Dean, Faculty of Medicine, M.S. University of Baroda., Baroda and Medical Director, Charutar Arogya Mandal Hospital and Research centre., Karamsad Gujarat for suggesting the research topic, constant encouragement, guidance and inspiration during the tenure of this work. I am also indebted to him for his constructive criticism, helpful suggestions and critically examining the manuscript of the thesis.

To Dr.Y.K. Agrawal, Head, Pharmacy Department, Faculty of Tech. & Engg. M.S. University of Baroda, Baroda., I am ever indebted for getting registration in the Pharmacy department and for the help regarding the chemical analysis of the drug Tamrabhasma (TABH).

It was my fortune to have the association with Mr.Shiv P. Rathod, Lecturer in Pharmacy, M.S. University of Baroda, Baroda, who acted as a catalyst to accomplish my goal to whom I am highly beholden.

I would like to express my thanks to Dr.(Mrs.)K.G. Hemavathi, M.D., Asso.Proff. of Pharmacology, Medical College, Baroda for giving me the inspiration and helpful suggestions for preparing the manuscript of the thesis.

I feel a deep debt of gratitude to Dr.(Mrs.)Premjata, Asst. Prof. of Pathology, Medical College, Baroda for her valuable help in the histopathological study; without her help my task would have been much more difficult.

For most photographs of the histopathological sections of the stomach and duodenum I am indebted to Dr.Kothari, Deptt. of Bio-Sciences, Vallabh Vidyanagar, Sardar Vallabhbhai Patel University.

I am grateful to the President, Gujarat Ayurveda Vikas Mandal Pharmacy, Junagadh, for the financial assistance to present the research work at 4th South East Asian Western pacific Regional Meeting of Pharmacologist, at Penang, Malaysia.

I am equally grateful to Dr.B.R. Sainath, M.D., Professor of Pharmacology and Head, S.U.P.A.R.Unit, M.S. University of Baroda, Baroda and other staff members of S.U.P.A.R. Unit and Department of Pharmacology who offered their help from time to time.

I am very much obliged to Biochem and Unichem for generous supply of carbenoxolone and indomethacin for the research project.

I am particularly indebted to the innocent rats who sacrificed their lives for discovery which represents the peak of scientific achievement of traditional preparation in this scientific age and provides a glimpse of the ultimate level of reality.

Last but not the least, I would like to thank Mr. Navin B. Dalwadi for typing the manuscript nicely.

D.C. Pandya

Because the newer methods of treatment are good, it does not follow that the old ones were bad; for if our honourable and worshipful ancestors had not recovered from their ailments, you and I would not be here to-day.

CONFUCIOUS ( 551 - 478 B.C.)
