

2.13 Reactions of Pindolol.	146
2.14 Application of the proposed spectrophotometric methods for the estimation of beta-blockers in biological fluids like blood and urine.	148
<u>CHAPTER-III</u>	
<u>PREFORMULATION AND STABILITY STUDIES.</u>	154
3.1 Stability of pindolol, Timolol Maleate, Nadolol and Sotalol Hydrochloride at elevated temperature as a function of pH.	154
3.2 Stability of pindolol, Timolol Maleate, Nadolol and sotalol Hydrochloride when exposed to UV radiation.	172
3.3 Stability of pindolol, Timolol maleate, Nadolol and sotalol Hydrochloride with different tablet excipients.	180
3.4 Stability of pindolol, Timolol Maleate, Nadolol and sotalol Hydrochloride with hydrochlorothiazide diuretic	199
3.5 Stability of pindolol, Timolol Maleate, Nadolol and sotalol Hydrochloride tablets and solutions of Timolol Maleate at elevated temperature and/or humidity.	201
3.6 HPLC method for the stability study of Timolol Maleate	205
<u>CHAPTER-IV</u>	
<u>SUMMARY</u>	212
4.1 Developmental analysis.	212
4.2 Preformulation and stability studies.	220
