

ACKNOWLEDGEMENT

Saying thank you is more than good manners...

I would thank to all from the bottom of my heart, but for you my heart has no bottom. It is a moment of gratification and pride to look back with a sense of contentment at the long travelled path, to be able to recapture some of the fine moments, to be able to thank infinite number of people, some who were with me from the beginning some who joined me at some stage during the journey, whose kindness, love and blessing has brought this day.

Because Any successful task is not an individual's effort but it is a joint venture of many people who put in their mind and soul for the completion of that work and it would not be justifiable to forget those people's dedication and efforts while sailing in the boat of success.
