

ACKNOWLEDGEMENT

I avail of this opportunity to express my deep sense of gratitude to Professor O.D.Gulati, Medical Director, CAM Hospital and Medical Research Centre, Karamsad, for his constant guidance in this project. His invaluable advice and sustained interest enlightened this difficult path and made this study a success.

My humble thanks are due to Dr.B.P.Udwadia, Chief, Medical Division, Ambalal Sarabhai Enterprises, Baroda, an eminent clinical Pharmacologist, for the inspiration he provided to streamline my ideas. I am greatly indebted to him for teaching me the subtleties of clinical pharmacology and for his critical assessment of this thesis.

I am extremely grateful to Dr.S.V.Desai, Asstt. Professor of Pharmacology, Medical College, Baroda and Dr.M.S.Sharma, Reader, Biochemistry Department, M.S. University of Baroda, for their unfailing cooperation, constant vigilance and constructive criticism throughout and their help in giving form and the required impetus to the project.

I also acknowledge the help rendered by the Medical Superintendents and personnel of the Padmavati Tuberculosis Sanatorium, Baroda and S.S.G.Hospital, Baroda.

I wish to thank Prof.C.V.Ramakrishnan, Prof.Rajalaxmi, R.R., Prof.Miss S.D.Telang, Prof.L.J.Parekh and rest of the staff and students of the Biochemistry Department, M.S.University of Baroda, for their kind permission to work with them and also for providing the necessary facilities.

I am obliged for the technical help in biochemical methods offered by Prof.P.B.Shah and Dr.S.C.Parikh of the Department of Clinical Biochemistry, Medical College, Baroda.

My sincere thanks are due to Prof.B.R.Sainath for his kind cooperation and support. I am also grateful to the staff of my department especially Dr.Mrs.K.G.Hemavathi, Associate Professor and my friends and colleagues for their sincere help and encouragement when it was needed the most.

I am also thankful to the Dean, Medical College, Baroda for providing me an opportunity to carry out this study.

I thank the Government of Gujarat and M/S Ambalal Sarabhai for awarding Research Grants to carry out my research work. My thanks are also due to the libraries

of Ambalal Sarabhai Enterprises, Alembic Chemicals,
Department of Biochemistry and Medical College, Baroda.

Words cannot express the gratitude I feel for the
patients and volunteers without whom this study could not
have been a reality.
