

## **ACKNOWLEDGEMENT**

*This thesis is culmination of my voyage of Ph.D. which was climbing a hill slowly and steadily with motivation, trust and faith. Today, being on top of the cloud with the feeling of fulfillment, I realized though only my name appears on the cover page of this thesis, many great people including my family members, friends, colleagues, my well-wishers and various institutes have been instrumental in the successful completion of this project.*

*First and foremost, I would like to thank God, the Creator and the Guardian, for granting me the wisdom, health and strength to undertake this research task and enabling me to its completion.*

*I would like to record my gratitude to my guide Dr. Kirti V. Patel. I consider it as a great opportunity to do my dissertation under her guidance. This feat was possible only because of her unconditional support and love. Her dynamism, vision, sincerity and motivation have deeply inspired me. From her, I have learned the importance of producing a good piece of work and putting them into it, the very best that you have. It's her vigor and hunger to perform in adverse situation, which has inspired me to thrive for excellence and nothing less. She made me realized what I had only heard, "When the going gets tough, the tough get going". She polished me not only academically but inspired me to be good human being while teaching me important aspects of living life. I will never find words to tell what I owe to her, and if I start doing it, I would not know where to end...thanks for everything Mam...to me, professionally; you are "perfection personified".*

*I thank Shri S. P. Rathod Sir, for being with me during conceptualization of the project. Without his guidance, this work would not have been possible. With his patient and gentle nature, he taught me another aspect of life that "Goodness can never be defied and good human beings can never be denied". Under his guidance, I successfully overcame many difficulties and learnt a lot. Also, I learnt really great techniques from him to teach students and make class interactive. I feel privileged to be associated with a person like her during my life.*

*My earnest thanks to Lady Tata Memorial Trust for supporting and sponsoring this project. Special thanks to Programme Officer, Rohan Dhanrao Sir, for patiently answering administrative queries.*

*I thank all the faculty members of the Pharmacy Department, Faculty of Pharmacy, The M. S. University of Baroda, for extending their help at various phases of this research, whenever I approached them, and I do hereby acknowledge all of them.*

*I also thank the administrative staff of the Pharmacy Department for their help and cooperation. I gratefully acknowledge the administrative help of Vaishali Mam, Chandrakant bhai, Heena mam, Bhoomi mam, Bharat bhai and Varsha Mam. I would also like to thank Pravin bhai, Pramod bhai, Prashant bhai, Nagin bhai, Jagdish bhai, Nilesh bhai, Habib bhai, Chandrakant bhai for their silent contributions. I would also like to thank technician Pragnesh bhai for repairing various instruments whenever needed.*

*On this occasion, I would like to acknowledge all the teachers I learnt from, since my childhood. I would not have been here without their guidance, blessings and support.*

*I owe a great deal of appreciation and gratitude to Mr. Rishit Zalawadia, Sun Pharma Advanced Research Company for helping me understanding the outcomes of the project in better way.*

*I greatly appreciate and acknowledge the support received from various institutes and laboratories. I am equally thankful to Dr. Sarita Gupta Mam, Head, Department of Biochemistry, Faculty of Science, The M. S. University of Baroda; Mitul Vakani, Ph.D. Scholar and Gaurav Chauhan, Ph.D. Scholar, Department of Biochemistry, Faculty of Science, The M. S. University of Baroda for their help in in-vitro studies. I am also grateful to Dr. Vikram Sarabhai Institute of Cell and Molecular Biology and Komal Mam for helping me in apoptosis assay. I am thankful to National Center for Cell line (NCCS), Pune for providing necessary cell lines required for the study. I thank Deshpande Laboratories, Bhopal, India for their help in performing immunohistochemistry of estrogen, progesterone and p53 gene. I am extremely thankful to Dr. Vijay Patel Sir,*

*Veterinarian, for allowing me to perform blood analysis of the samples at his clinic. He helped in developing syngeneic model and interpreting histopathological slides. He was always willing to lend his service whenever I approached him for any piece of work.*

*I would like to acknowledge the people who mean a lot to me, my parents; Dinesh Karia and Kirnaxi Karia; to whom I owe my very existence. Today I feel that my parents' hard work and dreams have been blossomed. I am extremely grateful for their love, prayers, caring and sacrifices for educating and preparing me for my future. I am also grateful to my grandparents, Late Mr. Jayantilal Thakkar and Labhuben Thakkar, whose blessings helped me to complete this thesis and face all hurdles coming in the way. Words would never be able to fathom the depth of feelings for them.*

*I would like to acknowledge my sister, Ms. Prakruti Karia who encouraged and helped me at every stage of my personal and academic life. I thank her for bearing my anger. I thank her for selfless love, care and dedicated efforts which contributed a lot for completion of my thesis.*

*I owe thanks to a very special person, my better half, Chirag (Chexu), for his continued and unflinching love, support and understanding during my pursuit of Ph.D degree that made the completion of thesis possible. You always stood by me in thick and thin of my life. You helped me to keep things in perspective when I thought that it is impossible to continue. With this much long journey, you come across many hurdles and frustration levels are on the peak. I salute you for bearing my frustration and deeply appreciate your belief in me. Your patient and kind nature inspired me a lot. Thanks for sharing every responsibility on professional as well as personal level. Words will never say how grateful I am to you.*

*I would like to thank Siddhant and Phalak, whose lovely and innocent face cheered me up from the hectic life.*

*I would like to mention all my other family members who supported me in different ways. I would also like to acknowledge Nilesh Uncle, Ankita Aunty, Kailash Patil bhai, Kinnari Patil, Daxa aunty and family, Hasti, Dhyani, Aryan,*

*Rohan for supporting me during various phases of my personal and professional life.*

*I would like to thank my in-laws Mr. Natvarbhai Parmar and Madhuben Parmar for their support during my project work. Special thanks to my sister-in-law Jahanvi di for understanding the demand of situation and relieving me from house-hold chores. Thanks to Hetvi and Jainam, with whom I enjoyed playing after long tiring day. Thanks to Hetal di, Abhijeet jiju and Aarav for contributing in their own ways.*

*How can I forget my lovely lappy who was always with me during my whole thesis writing and helped me to get through tedious and long calculations.*

*I am deeply grateful to all the past and present PhD colleagues of Pharmacology, Pharmaceutics, Medicinal Chemistry, Pharmaceutical Quality Assurance and Pharmacognosy. Thanks to Jatin Machhi sir and Sagar Patel who helped me in my initial days at MSU. Thanks to Hardik Savsani for discussions we had regarding project. Special thanks to Trupti Dubey, who came in late phase of my PhD work but played very important part. You were always beside me during happy and hard moments to push me and motivate me. I will always miss those chit-chats during chai ki chuskis. Thanks to Dhaval Bhavsar, with whom I jointly completed cell line studies. I also thank Ritu Khudara, who was my partner during course work. I also thank Kinjal Parikh, with whom I enjoyed commuting in trains. I would like to thank all the juniors who were there when I started to till date. Disha, Bushra, Madhuri, Pratik helped me to adjust in new environment and never made me feel alone. The enthusiastic and joyful nature of Amit Patel and Nikunj Parikh made the train journey too much enjoyable. Thanks for making me laugh with nicest sense of humor. Chirag Parikh, Bharghav Patel, Rudra Vyas, Vaitashi Purohit, Laxmi Patil, Bhumika Sharma, Mausam Patel, Monika Kabariya, Deepika Chavda, Annie Mecwan, Abbas, Ramesh Chaudhary, Mehul Hudda, Mukti Jadav, Parth Tiwari, Pallav and Mittal, all made lab environment lively and cheerful.*

*I would also like to acknowledge my old pals who motivated me in their own ways to pursue my dreams. Thanks for all your good wishes.*

*I would like to thank Deepak bhai, Alpa di and Vipul Bhai for providing nice food and refreshing snacks. The buttermilk of Jalaram Canteen will always be cherished in my memories.*

*It will be unjust if I don't mention my sinless animals; without them my project would not have been successful. May their soul rest in peace.*

*Finally, I would like to thank every person who contributed in this wonderful creation.*
